

Statement of Additional Information
December 29, 2023

BLUE CURRENT GLOBAL DIVIDEND FUND
INSTITUTIONAL CLASS (BCGDX)

Series of
ULTIMUS MANAGERS TRUST
225 Pictoria Drive, Suite 450
Cincinnati, Ohio 45246

This Statement of Additional Information (“SAI”) should be read in conjunction with the Prospectus for the Blue Current Global Dividend Fund (the “Fund”) dated December 29, 2023, which may be supplemented from time to time (the “Prospectus”). This SAI is incorporated by reference in its entirety into the Prospectus. Because this SAI is not itself a prospectus, no investment in shares of the Fund should be made solely upon the information contained herein. Copies of the Prospectus may be obtained without charge, upon request, by writing the Fund at P.O. Box 46707, Cincinnati, Ohio 45246-0707, by calling toll-free 1-800-514-3583 or by visiting the Fund’s website at www.bluecurrentfunds.com.

STATEMENT OF ADDITIONAL INFORMATION

The Blue Current Global Dividend Fund is a diversified series of Ultimus Managers Trust (the “Trust”), an open-end management investment company. The Trust is an unincorporated business trust that was organized under Ohio law on February 28, 2012. The Fund’s investments are managed by Edge Capital Group, LLC (the “Adviser”). For further information on the Fund, please call 1-800-514-3583 or visit the Fund’s website at www.bluecurrentfunds.com.

ADDITIONAL INFORMATION ON INVESTMENTS, STRATEGIES AND RISKS

Information contained in this SAI expands upon information contained in the Prospectus. All investments in securities and other financial instruments involve a risk of financial loss. No assurance can be given that the Fund’s investment programs will be successful. Investors should carefully review the descriptions of the Fund’s investments and associated risks described in the Prospectus and this SAI. No investment in shares of the Fund should be made without first reading the Prospectus. Unless otherwise indicated, percentage limitations, if any, apply at the time of purchase of the applicable securities.

General Investment Risks. All investments in securities and other financial instruments involve a risk of financial loss. No assurance can be given that the Fund’s investment programs will be successful. Investors should carefully review the descriptions of the Fund’s investments and their risks in this SAI and the Prospectus.

Market Risk. Market risk is the risk that the value of the securities in the Fund’s portfolio may decline due to daily fluctuations in the securities markets that are generally beyond the Adviser’s control, including fluctuation in interest rates, the quality of the Fund’s investments, economic conditions and general market conditions. Certain market events could increase volatility and exacerbate market risk, and could result in trading halts, such as changes in governments’ economic policies, political turmoil, environmental events, trade disputes, terrorism, military action and epidemics, pandemics or other public health issues. Any of the foregoing market events can adversely affect the economies of one or more countries or the entire global economy, certain industries or individual issuers, and capital and security markets in ways that cannot necessarily be foreseen or quickly addressed.

As shown with the novel coronavirus disease (“COVID-19”), market events (including public health crises and concerns) can have a profound economic and business effect that results in cancellations and disruptions to supply chains and customer activity, disruption and displacement of one or more sectors or industries, closing of borders and imposition of travel restrictions and quarantines, general public concern and uncertainty and, in extreme cases, exchange trading halts due to rapidly falling prices. Additionally, the impact of COVID-19 has caused significant volatility and declines in global financial markets, including the U.S. financial markets. Further, COVID-19 has led to production cutbacks for many companies and coupled with changes in consumer spending fueled by government stimulus, created a supply/demand imbalance and resulted in higher prices and inflation, the result of which can affect a company’s financial condition and ability to manufacture and sell its products. The duration and lasting impact of the COVID-19 outbreak is unclear and may not be fully known for some time. Likewise, the Russian invasion of Ukraine in early 2022 has caused increased volatility in various financial markets. The conflict has resulted in economic sanctions against Russia from both government entities and corporations and banking entities. The extent of the effects this will have throughout the world is impossible to predict, but this military action has already resulted in supply chain disruptions and increased trading costs.

Market events such as these and other types of market events may cause significant declines in the values and liquidity of many securities and other instruments, and significant disruptions to global business activity and financial markets. Turbulence in financial markets, and reduced liquidity in equity, credit and

fixed income markets may negatively affect many issuers both domestically and around the world, and can result in trading halts, any of which could have an adverse impact on the Fund. During periods of market volatility, security prices (including securities held by the Fund) could change drastically and rapidly and therefore adversely affect the Fund.

Equity Securities. The equity portion of the Fund's portfolio will generally be comprised of common stock, and preferred stock traded on domestic and foreign securities exchanges or on over-the-counter ("OTC") markets. In addition to common stock and preferred stock, the Fund's equity investments may include convertible securities. The prices of equity securities in which the Fund invests may fluctuate in response to many factors, including, but not limited to, the activities of the individual companies whose securities the Fund owns, general market and economic conditions, interest rates, and specific industry changes. Such price fluctuations subject the Fund to potential losses. In addition, regardless of any one company's particular prospects, a declining stock market may produce a decline in prices for all equity securities, which could also result in losses for the Fund. Market declines may continue for an indefinite period of time, and investors should understand that during temporary or extended bear markets, the value of equity securities, including securities held by the Fund, will likely decline.

Preferred Stock, Warrants, and Rights. The Fund may purchase preferred stock, warrants and rights, or it may acquire ownership of such investments by virtue of its ownership of common stocks. Preferred stocks are securities that represent an ownership interest providing the holder with claims on the issuer's earnings and assets before common stock owners but after bond owners. Unlike debt securities, the obligations of an issuer of preferred stock, including dividend and other payment obligations, may not typically be accelerated by the holders of such preferred stock on the occurrence of an event of default or other non-compliance by the issuer of the preferred stock. Preferred stocks may include the obligation to pay a stated dividend. The price of preferred stocks could depend more on the size of the dividend than on the company's performance. If a company fails to pay the dividend, its preferred stock is likely to drop in price. Changes in interest rates can also affect the price of preferred stock. Like common stocks, the value of preferred stock may fluctuate in response to many factors, including the activities of the issuer, general market and economic conditions, interest rates, and industry-specific changes. Also, regardless of any one company's particular prospectus, a declining stock market may produce a decline in prices for all equity securities, which could also result in losses.

Warrants are essentially options to purchase equity securities at specific prices and are valid for a specific period of time. Rights are similar to warrants but generally have a short duration and are distributed directly by the issuer to its shareholders. The holders of warrants and rights have no voting rights, and receive no dividends, with respect to the equity interests underlying warrants or rights, and will have no rights with respect to the assets of the issuer, until the warrant or right is exercised. Investments in warrants and rights involve certain risks, including the possible lack of a liquid market for resale, potential price fluctuations as a result of speculation or other factors, and failure of the price of the underlying security to reach or have reasonable prospects of reaching a level at which the warrant or right can be prudently exercised (in which event the warrant or right may expire without being exercised, resulting in a loss of the Fund's entire investment therein).

Convertible Securities. Although the equity investments of the Fund consist primarily of common and preferred stocks, the Fund may invest in securities convertible into common stock if, for example, the Adviser believes that a company's convertible securities are undervalued in the market.

The Fund may invest in convertible bonds. Convertible bonds are fixed-income securities that may be converted at a stated price within a specified period of time into a certain quantity of the common stock of the same or a different issuer. Convertible bonds are senior to common stocks in an issuer's capital structure, but are usually subordinated to similar non-convertible securities. While providing a fixed-

income stream (generally higher in yield than the income derivable from common stock but lower than that afforded by a similar non-convertible security), a convertible security also provides the investor the opportunity, through its conversion feature, to participate in the capital appreciation of the underlying common stock. Like other debt securities, the value of a convertible bond tends to vary inversely with the level of interest rates. However, to the extent that the market price of the underlying common stock approaches or exceeds the conversion price, the price of the convertible bond will be increasingly influenced by its conversion value (the security's worth, at market value, if converted into the underlying common stock). Although to a lesser extent than with fixed-income securities, the market value of convertible bonds tends to decline as interest rates increase and, conversely, tends to increase as interest rates decline. In addition, because of the conversion feature, the market value of convertible bonds tends to vary with fluctuations in the market value of the underlying common stock. A unique feature of convertible securities is that as the market price of the underlying common stock declines, convertible securities tend to trade increasingly on a yield basis and so may not experience market value declines to the same extent as the underlying common stock. When the market price of the underlying common stock increases, the prices of the convertible securities tend to rise as a reflection of the value of the underlying common stock. While no securities investments are without risk, investments in convertible securities generally entail less risk than investments in common stock of the same issuer.

If a convertible security is converted into common stock, the Fund may hold the common stock for an extended period of time. Prices of common stock may fluctuate in response to many factors, including, but not limited to, the activities of the individual companies whose stock the Fund owns, general market and economic conditions, interest rates, and specific industry changes. Such price fluctuations subject the Fund to potential losses. In addition, regardless of any one company's particular prospects, a declining stock market may produce a decline in prices for all stocks, which could also result in losses for the Funds.

Foreign Securities. The Fund may invest in securities of foreign issuers that trade on the United States ("U.S.") and foreign stock exchanges or in the form of American Depositary Receipts ("ADRs"). ADRs are receipts that evidence ownership of underlying securities issued by a foreign issuer. ADRs are generally issued by a U.S. bank or trust company to U.S. buyers as a substitute for direct ownership of a foreign security and are traded on U.S. exchanges. ADRs, in registered form, are designed for use in the U.S. securities markets. ADRs may be purchased through "sponsored" or "unsponsored" facilities. A sponsored facility is established jointly by the issuer of the underlying security and a depository. A depository may establish an unsponsored facility without participation by the issuer of the deposited security. The depository of an unsponsored ADR is under no obligation to distribute shareholder communications received from the issuer of the deposited security or to pass through voting rights with respect to the deposited security. Investments in ADRs are subject to risks similar to those associated with direct investments in foreign securities.

The Fund defines foreign securities as any security issued by a company that meets at least one of the following criteria at the time of purchase:

- The company is organized under the laws of a foreign country.
- The company maintains its principal place of business in a foreign country.
- The principal trading market for the company's securities is located in a foreign country.
- During its most recent fiscal year, at least 50% of the company's revenues or profits were derived from operations in foreign countries.
- During its most recent fiscal year, at least 50% of the company's assets were located in foreign countries.

Investing in the securities of foreign issuers involves special risks and considerations not typically associated with investing in U.S. companies. The performance of foreign markets does not necessarily track U.S. markets. Foreign investments may be affected favorably or unfavorably by changes in currency rates and exchange control regulations, and capital controls. There may be less publicly available information about a foreign company than about a U.S. company, and foreign companies may not be subject to accounting, auditing and financial reporting standards and requirements comparable to those applicable to U.S. companies. Changes in foreign exchange rates will affect the value of those securities which are denominated or quoted in currencies other than the U.S. dollar. Therefore, to the extent the Fund invests in a foreign security which is denominated or quoted in a currency other than the U.S. dollar, there is a risk that the value of such security will decrease due to changes in the relative value of the U.S. dollar and the security's underlying foreign currency. Additional costs associated with an investment in foreign securities may include higher custodial fees than those applicable to domestic custodial arrangements, generally higher commission rates on foreign portfolio transactions, and transaction costs of foreign currency conversions. Foreign securities may trade with less frequency and volume than domestic securities and therefore may exhibit less liquidity and greater price volatility than securities of U.S. companies. There may be less governmental supervision of securities markets, brokers and issuers of securities than in the U.S. Investments in foreign securities may also be subject to other risks different from those affecting U.S. investments, including local political or economic developments, expropriation or nationalization of assets, restrictions on foreign investment and repatriation of capital, imposition of withholding taxes on dividend or interest payments, currency blockage (which would prevent cash from being brought back to the U.S.), limits on proxy voting and difficulty in enforcing legal rights outside the U.S. Currency exchange rates and regulations may cause fluctuation in the value of foreign securities. In addition, foreign securities and dividends and interest payable on those securities may be subject to foreign taxes, including taxes withheld from payments on those securities.

Emerging Markets Investments. The Fund, subject to its investment strategies and policies, may invest directly and indirectly in emerging market equity and fixed-income securities. Emerging market countries may include, among others, countries in Asia, Latin, Central and South America, Eastern Europe, the Middle East and Africa. In addition to the general risk of investing in foreign securities and foreign exchange risk and currency transactions described above and below, investing in emerging markets can involve greater and more unique risks than those associated with investing in more developed markets. The securities markets of emerging countries are generally small, less developed, less liquid, and more volatile than securities markets of the U.S. and other developed markets. The risks of investing in emerging markets include greater social, political and economic uncertainties. Emerging market economies are often dependent upon a few commodities or natural resources that may be significantly adversely affected by volatile price movements against those commodities or natural resources. Emerging market countries may experience high levels of inflation and currency devaluation and have fewer potential buyers for investments. The securities markets and legal systems in emerging market countries may only be in a developmental stage and may provide few, or none, of the advantages and protections of markets or legal systems in more developed countries. Some of these countries may have in the past failed to recognize private property rights and have at times nationalized or expropriated the assets of private companies. Additionally, if settlements do not keep pace with the volume of securities transactions, they may be delayed, potentially causing the Fund's assets to be uninvested, the Fund to miss investment opportunities and potential returns, and the Fund to be unable to sell an investment. As a result of these various risks, investments in emerging markets are considered to be speculative and may be highly volatile.

Foreign Exchange Risk and Currency Transactions. The value of foreign investments as measured in U.S. dollars may be affected favorably or unfavorably by changes in foreign currency rates and exchange control regulations. Currency exchange rates can also be affected unpredictably by intervention by U.S. or foreign governments or central banks, or the failure to intervene, or by currency controls or political developments in the U.S. or abroad. Foreign currency exchange transactions may be

conducted on a spot (i.e., cash) basis at the spot rate prevailing in the foreign currency exchange market or through entering into derivative currency transactions. Currency futures contracts are exchange-traded and change in value to reflect movements of a currency or a basket of currencies. Settlement must be made in a designated currency.

Forward foreign currency exchange contracts are individually negotiated and privately traded so they are dependent upon the creditworthiness of the counterparty. Such contracts may be used to (i) gain exposure to a particular currency or currencies as a part of the Fund's investment strategy, (ii) when a security denominated in a foreign currency is purchased or sold, or (iii) when the receipt in a foreign currency of dividend or interest payments on such a security is anticipated. With respect to subparagraphs (ii) and (iii), a forward contract can then "lock in" the U.S. dollar price of the security or the U.S. dollar equivalent of such dividend or interest payment, as the case may be. Additionally, when the Adviser believes that the currency of a particular foreign country may suffer a substantial decline against the U.S. dollar, it may enter into a forward contract to sell, for a fixed amount of dollars, the amount of foreign currency approximating the value of some or all of the securities held that are denominated in such foreign currency. The precise matching of the forward contract amounts and the value of the securities involved will not generally be possible. In addition, it may not be possible to hedge against long-term currency changes. Cross-hedging may be used by using forward contracts in one currency (or basket of currencies) to hedge against fluctuations in the value of securities denominated in a different currency. Use of a different foreign currency magnifies exposure to foreign currency exchange rate fluctuations. Forward contracts may also be used to shift exposure to foreign currency exchange rate changes from one currency to another. Short-term hedging provides a means of fixing the dollar value of only a portion of portfolio assets.

The Dodd-Frank Wall Street Reform and Consumer Protection Act (the "Dodd-Frank Act") includes foreign exchange forwards in the definition of "swap" as well as OTC derivatives and therefore contemplates that certain of these contracts may be exchange-traded, cleared by a clearinghouse and otherwise regulated by the Commodity Futures Trading Commission (the "CFTC"). The CFTC has been granted authority to regulate forward foreign currency contracts and many of the final regulations already adopted by the CFTC will apply to such contracts, however a limited category of forward foreign currency contracts were excluded from certain of the Dodd-Frank Act regulations by the Secretary of the U.S. Department of Treasury (the "U.S. Treasury"). Therefore, trading by the Fund in forward foreign currency contracts excluded by the U.S. Treasury are not subject to the CFTC regulations to which other forward foreign currency contracts are subject.

Currency transactions are subject to the risk of a number of complex political and economic factors applicable to the countries issuing the underlying currencies. Furthermore, unlike trading in most other types of instruments, there is no systematic reporting of last sale information with respect to the foreign currencies underlying the derivative currency transactions. As a result, available information may not be complete. In an OTC trading environment, there are no daily price fluctuation limits. There may be no liquid secondary market to close out options purchased or written, or forward contracts entered into, until their exercise, expiration or maturity. There is also the risk of default by, or the bankruptcy of, the financial institution serving as a counterparty.

Currency swaps involve the exchange of rights to make or receive payments in specified currencies and are individually negotiated. The entire principal value of a currency swap is subject to the risk that the other party to the swap will default on its contractual delivery obligations. The Fund's performance may be adversely affected as the Adviser may be incorrect in its forecasts of market value and currency exchange rates.

Investment Companies. The Fund may, from time to time, invest in securities of other investment companies, both open-end and closed-end, including, without limitation, money market funds and exchange traded funds ("ETFs"). Generally, under Section 12(d)(1) of the Investment Company Act of 1940, as

amended (the “1940 Act”), a fund may not acquire shares of another investment company if, immediately after such acquisition, (i) a fund would hold more than 3% of the other investment company’s total outstanding shares, (ii) a fund’s investment in securities of the other investment company would be more than 5% of the value of the total assets of the fund, or (iii) more than 10% of a fund’s total assets would be invested in investment companies. Under certain conditions, a fund may invest in registered and unregistered money market funds in excess of these limitations. The Fund may rely upon any applicable statutory or regulatory exemption in investing in other investment companies. The Fund generally expects to rely on Rule 12d1-1 under the 1940 Act, when purchasing shares of a money market fund. Under Rule 12d1-1, the Fund may generally invest without limitation in money market funds as long as the Fund pays no sales charge (“sales charge”), as defined in rule 2830(b)(8) of the Conduct Rules of the Financial Industry Regulatory Authority (“FINRA”), or service fee, as defined in rule 2830(b)(9) of the Conduct Rules of FINRA, charged in connection with the purchase, sale, or redemption of securities issued by the money market fund (“service fee”); or the Adviser waives its management fee in an amount necessary to offset any sales charge or service fee. The Fund generally expects to rely on Section 12(d)(1)(F) of the 1940 Act when purchasing shares of other investment companies that are not money market funds. Under Section 12(d)(1)(F), the Fund may generally acquire shares of another investment company unless, immediately after such acquisition, the Fund and its affiliated persons would exceed 3% of the investment company’s total outstanding stock (the “3% Limitation”). To the extent the 3% Limitation applies to an investment the Fund wishes to make, the Fund may be prevented from allocating its investments in the manner that the Adviser considers optimal. Also, under the 1940 Act, to the extent that the Fund relies upon Section 12(d)(1)(F) in purchasing securities issued by another investment company, the Fund must either seek instructions from its shareholders with regard to the voting of all proxies with respect to its investment in such securities and vote such proxies only in accordance with the instructions, or vote the shares held by it in the same proportion as the vote of all other holders of the securities. In the event that there is a vote of investment company shares held by the Fund in reliance on Section 12(d)(1)(F), the Fund intends to vote such shares in the same proportion as the vote of all other holders of such securities. Investments in other investment companies subject the Fund to additional operating and management fees and expenses. For example, the Fund investors will indirectly bear fees and expenses charged by underlying investment companies in which the Fund invests, in addition to the Fund’s direct fees and expenses.

Rule 12d1-4 under the 1940 Act (“Rule 12d1-4”) allows funds to invest in other investment companies in excess of certain of the limitations discussed above, subject to certain limitations and conditions. An acquiring fund relying on Rule 12d1-4 generally must enter into a fund of funds investment agreement with the acquired fund. Rule 12d1-4 outlines the requirements for fund of funds agreements and specifies certain reporting responsibilities of the acquiring fund’s adviser. The Fund expects to rely on Rule 12d1-4 to the extent the Adviser deems such reliance necessary or appropriate.

Exchange Traded Funds. The Fund may invest in shares of ETFs. An ETF is typically an investment company registered under the 1940 Act that holds a portfolio of securities designed to track the performance of a particular index or market sector. Alternatively, ETFs may be actively managed pursuant to a particular investment strategy, similar to other non-index based investment companies. ETFs are traded on a securities exchange based on their market value. In addition, ETFs sell and redeem their shares at net asset value (“NAV”) in large blocks (typically 50,000 of its shares) called “creation units.” Shares representing fractional interests in these creation units are listed for trading on national securities exchanges and can be purchased and sold in the secondary market like ordinary stocks in lots of any size at any time during the trading day.

An investment in an ETF generally presents the same primary risks as an investment in a conventional registered investment company (i.e., one that is not exchange traded), including the risk that the general level of securities prices, or that the prices of securities within a particular sector, may increase

or decrease, thereby affecting the value of the shares of an ETF. In addition, ETFs are subject to the following risks that do not apply to conventional registered investment companies: (i) the market price of the ETF's shares may trade at a discount to the ETF's NAV; (ii) an active trading market for an ETF's shares may not develop or be maintained; (iii) trading of an ETF's shares may be halted if the listing exchange deems such action appropriate; (iv) ETF shares may be delisted from the exchange on which they trade; and (v) activation of "circuit breakers" by the exchange (which are tied to large decreases in stock prices) may halt trading of the ETF's shares temporarily. ETFs are also subject to the risks of the underlying securities or sectors that the ETF is designed to track.

Because ETFs bear various fees and expenses, the Fund will pay a proportionate share of these expenses, as well as transaction costs, such as brokerage commissions. As with traditional registered investment companies, ETFs charge asset-based fees, although these fees tend to be relatively low as compared to other types of investment companies. ETFs do not charge initial sales loads or redemption fees and investors pay only customary brokerage fees to buy and sell ETF shares.

As discussed under the section entitled "Investment Companies", the Fund is subject to certain limits on investments in other investment companies, including ETFs, but may exceed those limits in certain circumstances, including in reliance on Rule 12d1-4.

While the creation and redemption of creation units helps an ETF maintain a market value close to NAV, the market value of an ETF's shares may differ from its NAV. This difference in price may be due to the fact that the supply and demand in the market for ETF shares at any point in time is not always identical to the supply and demand in the market for the ETF's underlying basket of securities. Accordingly, there may be times when an ETF trades at a premium (creating the risk that the Fund pays more than NAV for an ETF when making a purchase) or discount (creating the risk that the Fund's NAV is reduced for undervalued ETFs it holds, and that the Fund receives less than NAV when selling an ETF).

Leveraged and Inverse ETF Risk. The Fund may invest in leveraged and inverse ETFs. Leveraged and inverse ETFs involve additional risks and considerations not present in traditional ETFs. Typically, shares of an index-based ETF are expected to increase in value as the value of the underlying benchmark increases. However, in the case of inverse ETFs (also called "short ETFs" or "bear ETFs"), shares are expected to increase in value as the value of the underlying benchmark decreases, similar to holding short positions in the underlying benchmark. Leveraged ETFs seek to deliver multiples (e.g., 2X or 3X) of the performance of the underlying benchmark, typically by using derivatives in an effort to amplify returns (or decline, in the case of inverse ETFs) of the underlying benchmark. While leveraged ETFs may offer the potential for greater return, the potential for loss and the speed at which losses can be realized also are greater.

Leveraged and inverse ETFs "reset" over short periods of time, meaning they are designed to deliver their stated returns only for the length of their reset periods (typically daily), and are not designed to deliver their returns intraday or over periods longer than the stated reset period. Because of the structure of these products, their rebalancing methodologies and the math of compounding, holding the ETFs beyond the reset period can lead to results very different from a simple doubling, tripling, or inverse of the benchmark's average return over the same period of time. This difference in results can be magnified in volatile markets. Further, leveraged and inverse ETFs may have lower trading volumes or may be less tax efficient than traditional ETFs and may be subject to additional regulation. To the extent that leveraged or inverse ETFs invest in derivatives, investments in such ETFs will be subject to the risks of investments in derivatives. For these reasons, leveraged and inverse ETFs are typically considered to be riskier investments than traditional ETFs.

Debt Securities. The Fund may invest in corporate debt securities and U.S. Government Obligations, as defined below. Corporate securities include, but are not limited to, debt obligations offered by public or private corporations either registered or unregistered. The market value of such securities may fluctuate in response to interest rates and the creditworthiness of the issuer. A debt instrument's credit quality depends on the issuer's ability to pay interest on the security and repay the debt; the lower the credit rating, the greater the risk that the security's issuer will default. The credit risk of a security may also depend on the credit quality of any bank or financial institution that provides credit enhancement for the security. In the case of corporate debt, the Fund will normally purchase investment grade securities, meaning securities rated BBB or better by S&P's Global Ratings ("S&P"), Baa or better by Moody's Investor Services ("Moody's") or any comparable rating by another nationally recognized statistical rating organization ("NRSRO") or, if unrated, as determined by the Adviser to be of comparable quality.

U.S. Government Obligations. The Fund may invest in U.S. Government Obligations. "U.S. Government Obligations" include securities which are issued or guaranteed by the U.S. Department of the Treasury ("U.S. Treasury"), by various agencies of the U.S. government, and by various instrumentalities which have been established or sponsored by the U.S. government. U.S. Treasury obligations are backed by the "full faith and credit" of the U.S. government. U.S. Treasury obligations include Treasury Bills, Treasury Notes, and Treasury Bonds. Treasury Bills have initial maturities of one year or less; Treasury Notes have initial maturities of one to ten years; and Treasury Bonds generally have initial maturities of greater than ten years.

Agencies and instrumentalities established by the U.S. government include the Federal Home Loan Banks, the Federal Land Bank, the Government National Mortgage Association, the Federal National Mortgage Association, the Federal Home Loan Mortgage Corporation, the Small Business Administration, the Bank for Cooperatives, the Federal Intermediate Credit Bank, the Federal Financing Bank, the Federal Farm Credit Banks, the Federal Agricultural Mortgage Corporation, the Resolution Funding Corporation, the Financing Corporation of America and the Tennessee Valley Authority. Some of these securities are supported by the full faith and credit of the U.S. government while others are supported only by the credit of the agency or instrumentality, which may include the right of the issuer to borrow from the U.S. Treasury. In the case of U.S. Government Obligations not backed by the full faith and credit of the U.S. government, the investor must look principally to the agency or instrumentality issuing or guaranteeing the obligation for ultimate repayment, and may not be able to assert a claim against the U.S. government itself in the event the agency or instrumentality does not meet its commitment. U.S. Government Obligations are subject to price fluctuations based upon changes in the level of interest rates, which will generally result in all those securities changing in price in the same way, i.e., all those securities experiencing appreciation when interest rates decline and depreciation when interest rates rise. Any guarantee of the U.S. government will not extend to the yield or value of the Fund's shares.

LIBOR Transition Risk. The Fund may have been exposed to financial instruments that were tied to the London Interbank Offered Rate ("LIBOR"). Until recently, LIBOR was used as a "benchmark" or "reference rate" for various commercial and financial contracts, including corporate and municipal bonds, bank loans, asset-backed and mortgage-related securities, interest rate swaps and other derivatives. ICE Benchmark Administration, the administrator of LIBOR, ceased publication of most LIBOR settings on June 30, 2023. However, the U.K. Financial Conduct Authority has required the ICE Benchmark Administration Limited to continue publishing a subset of U.S. dollar LIBOR settings on a "synthetic" basis through March 2024 for the three month sterling LIBOR setting and September 2024 for the one-, three-, and six-month sterling LIBOR settings. In March 2022, the U.S. federal government enacted the Adjustable Interest Rate (LIBOR) Act (the "LIBOR Act") to establish a process for replacing LIBOR in certain existing contracts that do not already provide for the use of a clearly defined and practicable replacement benchmark rate as described in the LIBOR Act, a benchmark replacement recommended by the Federal Reserve Board

will effectively replace the U.S. dollar LIBOR benchmark after June 30, 2023. Actions by regulators have resulted in the establishment of alternative reference rates to LIBOR in most major currencies. The U.S. Federal Reserve, based on the recommendations of the New York Federal Reserve's Alternative Reference Rate Committee (comprised of major derivative market participants and their regulators), has begun publishing a Secured Overnight Financing Rate ("SOFR"), which has replaced U.S. dollar LIBOR. Market participants generally have adopted alternative rates such as SOFR or otherwise amended such financial instruments to include fallback provisions and other measures that contemplated the discontinuation of LIBOR. To facilitate the transition of legacy derivatives contracts referencing the discontinuation of LIBOR. To facilitate the transition of legacy derivatives contracts referencing LIBOR, the International SWAPs and Derivatives Association, Inc. (ISDA) launched a protocol to incorporate fallback provisions. Notwithstanding the foregoing actions, there still remains uncertainty regarding successor reference rate methodologies and there is no assurance that the composition or characteristics of any alternative reference rate will be similar to or produce the same value or economic equivalence as LIBOR or that instruments using an alternative rate will have the same volume or liquidity as did LIBOR prior to its discontinuance or unavailability. The transition process away from LIBOR could lead to increased volatility and illiquidity in markets for instruments whose terms previously relied on LIBOR. It could also adversely impact the value of some investments previously linked to LIBOR and reduce the effectiveness of new hedges placed against investments linked to alternative rates. The transition away from LIBOR may also result in operational issues for the Fund and the Adviser, including the need of making regular fair valuation determinations. No assurances can be given as to the impact of the LIBOR transition (and the timing of any such impact) on the Fund and its investments. All of the aforementioned may adversely affect the Fund's performance and/or NAV.

Money Market Instruments. The Fund may invest in money market instruments. Money market instruments may include, without limitation, U.S. Government Obligations or certain types of corporate debt obligations (including those subject to repurchase agreements) as described herein, provided that they mature in thirteen months or less from the date of acquisition and are otherwise eligible for purchase by the Fund. Money market instruments also may include Banker's Acceptances, Certificates of Deposit of domestic branches of U.S. banks, Commercial Paper, Variable Amount Demand Master Notes ("Master Notes") and shares of money market investment companies. The Fund may also invest in shares of money market investment companies to the extent permitted by the 1940 Act.

Banker's Acceptances are time drafts drawn on and "accepted" by a bank, which are the customary means of effecting payment for merchandise sold in import-export transactions and are a source of financing used extensively in international trade. When a bank "accepts" such a time draft, it assumes liability for its payment. When the Fund acquires a Banker's Acceptance, the bank which "accepted" the time draft is liable for payment of interest and principal when due. The Banker's Acceptance, therefore, carries the full faith and credit of such bank.

Certificate of Deposit ("CD") is an unsecured interest-bearing debt obligation of a bank. CDs acquired by the Fund would generally be in amounts of \$100,000 or more.

Commercial Paper is an unsecured, short-term debt obligation of a bank, corporation or other borrower. Commercial Paper maturity generally ranges from two to 270 days and is usually sold on a discounted basis rather than as an interest-bearing instrument. The Fund will invest in Commercial Paper only if it is rated in the highest rating category by any NRSRO or, if not rated, if the issuer has an outstanding unsecured debt issue rated in the three highest categories by any NRSRO or, if not so rated, is of equivalent quality in the Adviser's assessment. Commercial Paper may include Master Notes of the same quality.

Master Notes are unsecured obligations which are redeemable upon demand of the holder and which permit the investment of fluctuating amounts at varying rates of interest. Master Notes will be acquired by the Fund only through the Master Note program of the custodian, acting as administrator thereof. The Adviser will monitor, on a continuous basis, the earnings power, cash flow and other liquidity ratios of the issuer of a Master Note held by the Fund.

Repurchase Agreements. The Fund may invest, directly or indirectly, in repurchase agreements. A repurchase agreement transaction occurs when an investor (e.g., the Fund) purchases a security (normally a U.S. government security) from a counterparty with the understanding that the investor will later resell the security to the same counterparty (normally a member bank of the Federal Reserve (defined below) or a registered government securities dealer) . The Fund's initial purchase is essentially a loan to the counterparty that is collateralized by the security (and/or securities substituted for them under the repurchase agreement). The Fund must return the security to the counterparty when the counterparty repurchases it at a later date and higher price. The repurchase price exceeds the purchase price by an amount that reflects an agreed upon market interest rate effective for the period of time during which the repurchase agreement is in effect. Delivery pursuant to the resale normally will occur within one to seven days of the purchase. Repurchase agreements are considered "loans" under the 1940 Act, collateralized by the underlying security. The Trust has implemented procedures to monitor on a continuous basis the value of the collateral serving as security for repurchase obligations. The Adviser will consider the creditworthiness of the counterparty. If the counterparty fails to pay the agreed upon resale price on the delivery date, the Fund will retain or attempt to dispose of the collateral. The Fund's risk is that such default may include any decline in value of the collateral to an amount which is less than 100% of the repurchase price, any costs of disposing of such collateral, and any loss resulting from any delay in foreclosing on the collateral. The Fund will not enter into any repurchase agreement that would cause more than 15% of its net assets to be invested in repurchase agreements that extend beyond seven days.

Illiquid Investments. The Fund may not purchase or otherwise acquire any illiquid investment if, immediately after the acquisition, the value of illiquid investments held by the Fund would exceed 15% of the Fund's net assets. An illiquid investment is any investment that the Fund reasonably expects cannot be sold or disposed of in current market conditions in seven calendar days or less without the sale or disposition significantly changing the market value of the investment. Illiquid investments pose risks of potential delays in resale and uncertainty in valuation. Limitations on resale may have an adverse effect on the marketability of portfolio investments and the Fund may be unable to dispose of illiquid investments promptly or at reasonable prices. Under the supervision of the Trust's Board of Trustees (the "Board"), the Adviser determines the liquidity of the Fund's investments and, through reports from the Adviser, the Trustees monitor investments in illiquid investments. If through a change in values, net assets, or other circumstances, the Fund was in a position where more than 15% of its net assets were invested in illiquid investments, it would seek to take appropriate steps to bring the Fund's illiquid investments to or below 15% of its net assets per the requirements of Rule 22e-4 of the 1940 Act. The sale of some illiquid and other types of investments may be subject to legal restrictions.

If the Fund invests in investments for which there is no ready market, the Fund may not be able to readily sell such investments. Such investments are unlike investments that are traded in the open market, and which can be expected to be sold immediately if the market is adequate. The sale price of illiquid investments once realized may be lower or higher than the Adviser's most recent estimate of their fair market value. Generally, less public information is available about issuers of such illiquid investments than about companies whose investments are publicly traded.

Restricted Securities. Within its limitation on investment in illiquid investments, the Fund may purchase restricted securities that generally can be sold in privately negotiated transactions, pursuant to an exemption from registration under the federal securities laws, or in a registered public offering, such as

securities that may be eligible for resale pursuant to Rule 144A under the Securities Act of 1933 (“144A Securities”). Where registration is required, the Fund may be obligated to pay all or part of the registration expense and a considerable period may elapse between the time it decides to seek registration and the time the Fund may be permitted to sell a security under an effective registration statement. If during such a period adverse market conditions were to develop, the Fund might obtain a less favorable price than prevailed when it decided to seek registration of the security.

Restricted securities are generally considered to be illiquid unless it is determined, based upon a review of the trading markets for a specific restricted security, that such restricted security is liquid because it is so-called “4(a)(2) commercial paper” or is otherwise eligible for resale pursuant to Rule 144A under the Securities Act of 1933, as amended (“144A Securities”). Investing in 144A Securities may decrease the liquidity of the Fund’s portfolio to the extent that qualified institutional buyers become for a time uninterested in purchasing these restricted securities. The purchase price and subsequent valuation of restricted securities normally reflect a discount, which may be significant, from the market price of comparable securities for which a liquid market exists.

Borrowing Money. The Fund may, to the extent permitted under the 1940 Act, borrow money in order to meet redemption requests or for extraordinary or emergency purposes. Borrowing involves the creation of a liability that requires the Fund to pay interest. In the event the Fund should ever borrow money under these conditions, such borrowing could increase the Fund’s costs and thus reduce the value of the Fund’s assets. In an extreme case, if the Fund’s current investment income were not sufficient to meet the interest expense of borrowing, it could be necessary for the Fund to liquidate certain of its investments at an inappropriate time.

Lending of Portfolio Securities. In order to generate additional income, the Fund may lend portfolio securities in an amount up to 33% of its total assets to broker-dealers, major banks, or other recognized domestic institutional borrowers of securities that the Adviser has determined are creditworthy under guidelines established by the Board. In determining whether the Fund will lend securities, the Adviser will consider all relevant facts and circumstances. The Fund may not lend securities to any company affiliated with the Adviser. Each loan of securities will be collateralized by cash, securities, or letters of credit. The Fund might experience a loss if the borrower defaults on the loan.

The borrower at all times during the loan must maintain with the Fund collateral in the form of cash or cash equivalents, or provide to the Fund an irrevocable letter of credit equal in value to at least 100% of the value of the securities loaned. While the loan is outstanding, the borrower will pay the Fund any dividends or interest paid on the loaned securities, and the Fund may invest the cash collateral to earn additional income. Alternatively, the Fund may receive an agreed-upon amount of interest income from the borrower who has delivered equivalent collateral or a letter of credit. It is anticipated that the Fund may share with the borrower some of the income received on the collateral for the loan or the Fund will be paid a premium for the loan. Loans are subject to termination at the option of the Fund or the borrower at any time. The Fund may pay reasonable administrative and custodial fees in connection with a loan, and may pay a negotiated portion of the income earned on the cash to the borrower or placing broker. As with other extensions of credit, there are risks of delay in recovery or even loss of rights in the collateral should the borrower fail financially. If the Fund invests the cash collateral from the borrower, there is the risk that such investment may result in a financial loss. In such an event, the Fund would be required to repay the borrower out of the Fund’s assets.

Where voting rights with respect to the loaned securities pass with the lending of the securities, the Adviser normally intends to call the loaned securities to vote proxies, or to use other practicable and legally enforceable means to obtain voting rights, when the Adviser believes a material event affecting the loaned securities will occur or the Adviser otherwise believes it necessary to vote.

The Fund did not engage in the lending of portfolio securities during the past fiscal year.

Economic and Regulatory Risks. Domestic and foreign governments and agencies thereof often adopt an active approach to managing economic conditions within a nation, which may have material effects on the securities markets within the nation. A government may pursue supportive policies that include, but are not limited to, lowering corporate and personal tax rates and launching stimulative government spending programs designed to improve the national economy or sectors thereof. Agencies of a government, including central banks, may pursue supporting policies that include, but are not limited to, setting lower interest rate targets and buying and selling securities in the public markets. Governments and agencies thereof may also attempt to slow economic growth if the pace of economic growth is perceived to be too great and pose a long-term risk to the economy or a sector thereof. In each instance, the actions taken may be less successful than anticipated or may have unintended adverse consequences. Such a failure or investor perception that such efforts or support are failing could negatively affect securities markets generally, as well as result in higher interest rates, increased market volatility and reduced the value and liquidity of certain securities, including securities held by the Fund.

In addition, governments and agencies thereof may enact additional regulation or engage in deregulation that negatively impacts the general securities markets or a sector thereof. Given the potential broad scope and sweeping nature of some regulatory actions, the potential impact a regulatory action may have on securities held by the Fund may be difficult to determine and may not be fully known for an extended period of time. Accordingly, regulatory actions could adversely affect the Fund.

Changing Fixed Income Market Conditions. Following the financial crisis that began in 2007, the U.S. government and the Board of Governors of the Federal Reserve System (the “Federal Reserve”), as well as certain foreign governments and central banks, took steps to support financial markets, including seeking to maintain interest rates at or near historically low levels and by purchasing large quantities of fixed income securities on the open market, such as securities issued or guaranteed by the U.S. government, its agencies or instrumentalities, (“Quantitative Easing”). Similar steps took place again in 2020 and 2021 in an effort to support the economy during the COVID-19 pandemic. With the Federal Reserve’s recent increases in the federal funds rate after a period of historically low rates, as well as its determination to “taper” or reduce Quantitative Easing, fixed-income and related markets may be exposed to heightened volatility and may reduce liquidity for certain fixed income investments, including fixed income investments held by the Fund. This in turn could cause the value of the Fund’s investments and share price to decline.

Operational Risk. An investment in the Fund involves operational risk arising from factors such as processing errors, human errors, inadequate or failed internal or external processes, failures in systems and technology, changes in personnel and errors caused by third-party service providers. Any of these failures or errors could result in a loss or compromise of information, regulatory scrutiny, reputational damage or other events, any of which could have a material adverse effect on the Fund. While the Fund seeks to minimize such events through controls and oversight, there is no guarantee that the Fund will not suffer losses due to operational risk.

Cybersecurity Risk. The Fund and its service providers may be subject to operational and information security risks resulting from breaches in cybersecurity. A breach in cybersecurity refers to both intentional and unintentional events that may cause the Fund to lose or compromise confidential, proprietary or private personal information, suffer data corruption or lose operational capacity. Breaches in cybersecurity include, among other things, stealing or corrupting data maintained online or digitally, denial of service attacks on websites, the unauthorized release of confidential, proprietary or private personal information or various other operational disruptions. Successful cybersecurity breaches of the Fund and/or

the Fund’s investment adviser, distributor, custodian, transfer agent or other third-party service providers may adversely impact the Fund and its shareholders. For instance, a successful cybersecurity breach may interfere with the processing of shareholder transactions, impact the Fund’s ability to calculate its NAV, cause the release of confidential, proprietary or private personal shareholder information, impede trading, subject the Fund to regulatory fines or financial losses, and/or cause reputational damage. The Fund relies on third-party service providers for many of the day-to-day operations, and is therefore subject to the risk that the protections and protocols implemented by those service providers will be ineffective in protecting the Fund from cybersecurity breaches. Similar types of cybersecurity risks are also present for issuers of securities in which the Fund may invest, which could result in material adverse consequences for such issuers and may cause the Fund’s investments in such companies to lose value. There is no guarantee the Fund will be successful in protecting against cybersecurity breaches.

Temporary Defensive Positions. The Fund may from time to time take temporary defensive positions that are inconsistent with its principal investment strategies. If the Adviser believes a temporary defensive position is warranted in view of market conditions, the Fund may hold cash or invest up to 100% of its assets in high-quality short-term government or corporate obligations, money market instruments or shares of money market mutual funds. Taking a temporary defensive position may prevent the Fund from achieving its investment objective.

Portfolio Turnover. The portfolio turnover rate for the Fund is calculated by dividing the lesser of the Fund’s purchases or sales of portfolio securities for the year by the monthly average value of the securities. The Fund’s portfolio turnover rate may vary greatly from year to year as well as within a particular year, and may also be affected by cash requirements for redemption of shares. High portfolio turnover rates will generally result in higher transaction costs to the Fund, including brokerage commissions, and may result in additional tax consequences to the Fund’s shareholders. For the fiscal years ended August 31 below, the portfolio turnover rates for the Fund were:

Fiscal Year Ended	Portfolio Turnover Rate
2023	60%
2022	60%

INVESTMENT RESTRICTIONS

The Fund has adopted the following fundamental investment limitations that may not be changed without the affirmative vote of a majority of the outstanding shares of the Fund. As used in the Prospectus and this SAI, the term “majority” of the outstanding shares of the Fund means the lesser of (1) 67% or more of the outstanding voting securities of the Fund present at a meeting, if the holders of more than 50% of the outstanding voting securities of the Fund are present or represented at such meeting; or (2) more than 50% of the outstanding voting securities of the Fund. Unless otherwise indicated, percentage limitations apply at the time of purchase of the applicable securities. See the Prospectus for more information about the Fund’s investment objective and investment strategies, each of which are not fundamental and may be changed without shareholder approval.

Fundamental Restrictions. As a matter of fundamental policy:

1. Borrowing Money. The Fund may, subject to the restrictions of the 1940 Act, borrow money from banks as a temporary measure. For example, the Fund may borrow money to meet redemption requests or for extraordinary or emergency purposes.
2. Senior Securities. The Fund will not issue senior securities, except as permitted by the 1940 Act, the rules and regulations promulgated thereunder or interpretations of the SEC or its staff.
3. Underwriting. The Fund will not act as underwriter, except to the extent that, in connection with the disposition of portfolio securities (including restricted securities), the Fund may be deemed an underwriter under certain federal securities laws or in connection with investments in other investment companies.
4. Real Estate. The Fund will not directly purchase or sell real estate. This limitation is not applicable to investments in marketable securities which are secured by or represent interests in real estate. This limitation does not preclude the Fund from holding or selling real estate acquired as a result of the Fund’s ownership of securities or other instruments, investing in mortgage-related securities or investing in companies engaged in the real estate business or that have a significant portion of their assets in real estate (including real estate investment trusts).
5. Commodities. The Fund will not purchase or sell commodities unless acquired as a result of ownership of securities or other investments. This limitation does not preclude the Fund from purchasing or selling options, forward contracts, or futures contracts, including those relating to indices, or options on futures contracts or indices, or from investing in securities or other instruments backed by commodities or from investing in companies which are engaged in a commodities business or have a significant portion of their assets in commodities.
6. Loans. The Fund will not make loans to other persons, provided that the Fund may lend its portfolio securities in an amount up to 33% of total Fund assets, and provided further that, for purposes of this restriction, investment in U.S. Government obligations, short-term commercial paper, certificates of deposit, bankers’ acceptances, repurchase agreements and any other lending arrangement permitted by the 1940 Act, any rules and regulations promulgated thereunder or interpretations of the SEC or its staff shall not be deemed to be the making of a “loan.” For purposes of this limitation, the term “loans” shall not include the purchase of a portion of an issue of publicly distributed bonds, debentures or other debt securities.
7. Concentration. The Fund will not invest more than 25% of its total assets in a particular industry. This limitation is not applicable to investments in obligations issued or guaranteed by the U.S. Government (including its agencies and instrumentalities) or state or municipal governments and their political

subdivisions (other than revenue bonds issued in connection with an identifiable industry; e.g., healthcare or education) or repurchase agreements with respect thereto, or investments in registered investment companies.

Non-Fundamental Restriction. The following investment limitation is not fundamental and may be changed by the Board without shareholder approval. The Fund may not invest more than 15% of its net assets in illiquid securities. Rule 144A Securities determined by the Adviser to be liquid, subject to the oversight of the Board, shall not be deemed to be “illiquid securities.”

With respect to the “fundamental” investment restrictions above, if a percentage limitation or standard is adhered to at the time of investment, a later increase or decrease in percentage or departure from the standard resulting from any change in value or net assets or other factors will not result in a violation of such restriction (i.e., percentage limitations are determined at the time of purchase); provided, however, that the treatment of the fundamental restrictions related to borrowing money and issuing senior securities and the non-fundamental restriction relating to illiquid securities are exceptions to this general rule.

Senior securities may include any obligation or instrument issued by a fund evidencing indebtedness. The 1940 Act generally prohibits funds from issuing senior securities. Rule 18f-4 under the 1940 Act permits a fund to enter into “derivatives transactions,” notwithstanding prohibitions and restrictions on the issuance of senior securities under Section 18 of the 1940 Act, provided the fund complies with the Rule’s conditions. In accordance with Rule 18f-1, a fund may enter into reverse repurchase and similar financing transactions if it either (1) complies with the asset segregation requirements of Section 18 of the 1940 Act or (2) treat such transactions as derivative transactions under Rule 18f-4.

The 1940 Act permits the Fund to borrow money from banks in an amount up to one-third of its total assets (including the amount borrowed) less its liabilities (not including any borrowings but including the fair market value at the time of computation of any other senior securities then outstanding). In general, the Fund may not issue any class of senior security, except that the Fund may (i) borrow from banks, provided that immediately following any such borrowing there is an asset coverage of at least 300% for all Fund borrowings and in the event such asset coverage falls below 300% the Fund will within three days (excluding holidays and Sundays) or such longer period as the SEC may prescribe by rules and regulation, reduce the amount of its borrowings to an extent that the asset coverage of such borrowings shall be at least 300%, and (ii) engage in trading practices which could be deemed to involve the issuance of a senior security, including options, futures, forward contracts and reverse repurchase agreements, provided that the Fund does so in accordance with applicable SEC regulations and interpretations (including Rule 18f-4 under the 1940 Act).

CALCULATION OF SHARE PRICE

The share price or NAV of shares of the Fund is determined as of the close of the regular session of trading on the New York Stock Exchange (the “NYSE”) on each day the NYSE is open for trading. Currently, the NYSE is open for trading on every day except Saturdays, Sundays and the following holidays: New Year’s Day, Martin Luther King, Jr. Day, Presidents’ Day, Good Friday, Memorial Day, Juneteenth National Independence Day, Independence Day, Labor Day, Thanksgiving Day, and Christmas Day.

For purposes of computing the Fund’s NAV, securities are valued at market value as of the close of regular trading on the NYSE (normally, 4:00 p.m. Eastern Time) on each business day the NYSE is open. Securities listed on the NYSE or other exchanges are valued based on their last sale prices on the exchanges on which they are primarily traded. If there are no sales on that day, the securities are valued at the mean

of the closing bid and ask prices on the NYSE or other primary exchange for that day. National Association of Securities Dealers Automated Quotations (“NASDAQ”) listed securities are valued at the NASDAQ Official Closing Price. If there are no sales on that day, the securities are valued at the mean of the most recently quoted bid and ask prices as reported by NASDAQ. Securities traded in the OTC market are valued at the last sale price, if available, otherwise at the mean of the most recently quoted bid and ask prices. In the event that market quotations are not readily available or are considered unreliable due to market or other events, securities and other assets are valued at fair value as determined by the Adviser, as the Fund’s valuation designee, in accordance with procedures adopted by the Board pursuant to Rule 2a-5 under the 1940 Act. Fixed-income securities are normally valued based on prices obtained from independent third-party pricing services, which are generally determined with consideration given to institutional bid and last sale prices and take into account security prices, yield, maturity, call features, ratings, institutional sized trading in similar groups of securities and developments related to specific securities. Foreign securities are normally valued on the basis of fair valuation prices obtained from independent third-party pricing services, which are generally determined with consideration given to any change in price of the foreign security and any other developments related to the foreign security since the last sale price on the exchange on which such foreign security primarily traded and the close of regular trading on the NYSE. Information provided by one or more pricing services may be utilized in determining the fair value of securities held by the Fund. To the extent the assets of the Fund are invested in other open-end investment companies that are registered under the 1940 Act and not traded on an exchange, the Fund’s NAV is calculated based upon the NAVs reported by such registered open-end investment companies, and the prospectuses for these companies explain the circumstances under which they will use fair value pricing and the effects of using fair value pricing. To the extent the Fund has portfolio securities that are primarily listed on foreign exchanges that trade on weekends or other days when the Fund does not price its shares, the NAV of the Fund’s shares may change on days when shareholders will not be able to purchase or redeem the Fund’s shares.

ADDITIONAL PURCHASE AND REDEMPTION INFORMATION

Shares of the Fund are offered for sale on a continuous basis. Shares are sold and redeemed at their NAV, as next determined after receipt of the purchase or redemption order in proper form.

The Fund may suspend the right of redemption or postpone the date of payment for shares during a period when: (a) trading on the NYSE is restricted by applicable rules and regulations of the SEC; (b) the NYSE is closed for other than customary weekend and holiday closings; (c) the SEC has by order permitted these suspensions; or (d) an emergency exists as a result of which: (i) disposal by the Fund of securities owned by it is not reasonably practicable, or (ii) it is not reasonably practicable for the Fund to determine the value of its assets.

The Fund reserves the right to make payment for a redemption in securities rather than cash, which is known as a “redemption in kind”. Redemptions in kind will be made only under extraordinary circumstances and if the Fund deems it advisable for the benefit of its shareholders. An irrevocable election has been filed under Rule 18f-1 of the 1940 Act, wherein the Fund has committed to pay redemptions in cash, rather than in kind, to any shareholder of record of the Fund who redeems during any ninety day period, the lesser of (a) \$250,000 or (b) one percent (1%) of the Fund’s net assets at the beginning of such period unless the shareholder consents to receiving the entire distribution in kind. A redemption in kind will consist of liquid securities equal in market value to the Fund shares being redeemed, using the same valuation procedures that the Fund uses to compute its NAV. Redemption in kind proceeds will typically be made by delivering a pro-rata amount of the Fund’s holdings that are readily marketable securities to the redeeming shareholder within seven calendar days after the Fund’s receipt of the redemption order in proper form. If the Fund redeems your shares in kind, you will bear the market risks associated with maintaining or selling the securities paid as redemption proceeds. In addition, when you sell these securities, you bear

the risk that the securities have become less liquid and are difficult to sell. You also will be responsible for any taxes and brokerage charges associated with selling the securities.

SHAREHOLDER SERVICES

As noted in the Prospectus, the Fund offers the following shareholder services:

Regular Account. The regular account allows for voluntary investments to be made at any time. Available to individuals, custodians, corporations, trusts, estates, corporate retirement plans and others, investors are free to make additions to and withdrawals from their account as often as they wish. When an investor makes an initial investment in the Fund, a shareholder account is opened in accordance with the investor's registration instructions. Each time there is a transaction in a shareholder account, such as an additional investment or a redemption, the shareholder will receive a confirmation statement showing the current transaction.

Automatic Investment Plan. The automatic investment plan enables investors to make regular periodic investments in shares through automatic charges to their checking account. With shareholder authorization and bank approval, the Fund's transfer agent will automatically charge the checking account for the amount specified (\$100 minimum) which will be automatically invested in shares at the NAV on or about the fifteenth and/or the last business day of the month, or both. The shareholder may change the amount of the investment or discontinue the plan at any time by writing to the Fund.

Transfer of Registration. To transfer shares to another owner, send a written request to Blue Current Global Dividend Fund, P.O. Box 46707, Cincinnati, Ohio 45246-0707. Your request should include the following: (i) the Fund name and existing account registration; (ii) signature(s) of the registered owner(s) exactly as the signature(s) appear(s) on the account registration; (iii) if it is for a new account, a completed account application, or if it is an existing account, the account number; (iv) Medallion signature guarantees (See the heading "How to Redeem Shares – Signature Guarantees" in the Prospectus); and (v) any additional documents that are required for transfer by corporations, administrators, executors, trustees, guardians, etc. If you have any questions about transferring shares, call or write the Fund.

MANAGEMENT OF THE TRUST

Overall responsibility for management and supervision of the Fund and the Trust rests with the Board. The members of the Board (the "Trustees") are elected by the Trust's shareholders or the existing members of the Board as permitted under the 1940 Act and the Trust's Agreement and Declaration of Trust (the "Declaration of Trust"). Each Trustee serves for a term of indefinite duration until death, resignation, retirement or removal from office. The Trustees, in turn, elect the officers of the Trust to actively supervise the Trust's day-to-day operations. The officers are elected annually. Certain officers of the Trust also may serve as Trustees.

The Trust will be managed by the Board in accordance with the laws of the State of Ohio governing business trusts. There are currently six Trustees, five of whom are not "interested persons," as defined by the 1940 Act, of the Trust (the "Independent Trustees"). The Independent Trustees receive compensation for their services as Trustees and attendance at meetings of the Board. Officers of the Trust receive no compensation from the Trust for performing the duties of their offices.

Included in Appendix A is a table that sets forth the Trustees and executive officers of the Trust, their year of birth and address, their present position with the Trust, length of time served in their position, their principal occupation(s) during the past five years, and any other directorships held by the Trustees. Those Trustees who are “interested persons” as defined in the 1940 Act and those Trustees who are Independent Trustees are identified in the table.

Leadership Structure and Qualifications of Trustees

As noted above, the Board consists of six Trustees, five of whom are Independent Trustees. The Board is responsible for the oversight of the series, or funds, of the Trust.

In addition to the Fund, the Trust has other series managed by other investment advisers. The Board has engaged various investment advisers to oversee the day-to-day management of the Trust’s series. The Board is responsible for overseeing these investment advisers and the Trust’s other service providers in the operations of the Trust in accordance with the 1940 Act, other applicable federal and state laws, and the Declaration of Trust.

The Board meets at least four times throughout the year. The Board generally meets in person, but may meet by telephone or videoconference as permitted by the 1940 Act. In addition, the Trustees may meet in person, by telephone or videoconference at special meetings or on an informal basis at other times. The Independent Trustees also meet at least quarterly without the presence of any representatives of management.

Board Leadership. The Board is led by its Chairperson, Ms. Janine L. Cohen, who is also an Independent Trustee. The Chairperson generally presides at all Board Meetings, facilitates communication and coordination between the Trustees and management, and reviews meeting agendas for the Board and the information provided by management to the Trustees. The Chairperson works closely with Trust counsel and counsel to the Independent Trustees. The Chairperson is also assisted by the Trust’s President, who, with the assistance of the Trust’s other officers, oversees the daily operations of the Fund, including monitoring the activities of all of the Fund’s service providers.

The Board believes that its leadership structure, including having an Independent Trustee serve as Chairperson and five out of six Trustees as Independent Trustees, is appropriate and in the best interests of the Trust. The Board also believes its leadership structure facilitates the orderly and efficient flow of information to the Independent Trustees from Trust management.

Board Committees. The Board has established the following standing committees:

Audit Committee. The principal functions of the Audit Committee are: (i) to appoint, retain and oversee the Trust’s independent registered public accounting firm; (ii) to meet separately with the independent registered public accounting firm and receive and consider a report concerning its conduct of the audit, including any comments or recommendations it deems appropriate; (iii) to act as the Trust’s qualified legal compliance committee (“QLCC”), as defined in the regulations under the Sarbanes-Oxley Act; and (iv) to act as a proxy voting committee if called upon under the Trust’s Proxy Voting Policies and Procedures when a matter with respect to which a series of the Trust is entitled to vote presents a conflict between the interest of the series’ shareholders, on the one hand, and those of the series’ investment manager, on the other hand. Messrs. David M. Deptula, Robert E. Morrison, and Clifford N. Schireson, and Meses. Janine L. Cohen and Jacqueline A. Williams are the members of the Audit Committee. Mr. Deptula is the Chairperson of the Audit Committee and presides at its meetings. The Audit Committee met six times during the Fund’s prior fiscal year.

Nominations and Governance Committee (the “Governance Committee”). The Governance Committee nominates and selects persons to serve as members of the Board, including Independent Trustees and “interested” Trustees and assists in reviewing the Trust’s governance practices and standards. In selecting and nominating persons to serve as Independent Trustees, the Governance Committee will not consider nominees recommended by shareholders of the Trust unless required by law. Messrs. Deptula, Morrison, and Schireson and Ms. Cohen and Williams are the members of the Governance Committee. Mr. Morrison is the Chairperson of the Governance Committee and presides at its meetings. The Governance Committee met four times during the Fund’s prior fiscal year.

Qualifications of the Trustees. The Governance Committee reviews the experience, qualifications, attributes and skills of potential candidates for nomination or election by the Board. In evaluating a candidate for nomination or election as a Trustee, the Governance Committee takes into account the contribution that the candidate would be expected to make to the diverse mix of experience, qualifications, attributes and skills that the Governance Committee believes contribute to the oversight of the Trust’s affairs. The Board has concluded, based on the recommendation of the Governance Committee, that each Trustee’s experience, qualifications, attributes or skills on both an individual basis and in combination with the other Trustees, that each Trustee is qualified to serve on the Board. The Board believes that the Trustees’ ability to review critically, evaluate, question and discuss information provided to them, to interact effectively with the Adviser, other service providers, legal counsel and the independent registered public accounting firm, and to exercise effective business judgment in the performance of their duties as Trustees support this conclusion. In determining that a particular Trustee is and will continue to be qualified to serve as a Trustee, the Board considers a variety of criteria, none of which, in isolation, is controlling.

In addition to the Trustee qualifications listed above, each of the Trustees has additional Trustee qualifications including, among other things, the experience identified in the “Trustees and Executive Officers” table included in Appendix A and below.

Effective December 31, 2023, Mr. Deptula will retire and resign from the Board and its committees. Mr. Schireson will replace Mr. Deptula as Chairperson of the Audit Committee effective January 1, 2024. Effective January 1, 2024, Mr. Keith Shintani will join the Board as an Independent Trustee and serve as a member of the Audit Committee and Governance Committee.

Interested Trustee

David James currently serves as Executive Vice President and Chief Legal and Risk Officer of Ultimus Fund Solutions, LLC (“Ultimus”). Mr. James is also a Trustee of Capitol Series Trust. He has over 25 years of experience in the mutual fund servicing industry. He served as an Assistant Secretary of the Trust from October 2021 until April 2023 and Secretary of the Trust from July 2021 to October 2021. Before joining Ultimus in 2018, Mr. James served as the Department Head of State Street Bank and Trust Company’s Fund Administration Legal Department, a group of over 54 attorneys and paralegals that provided legal regulatory services to over 60 mutual fund complexes. Mr. James spent 15 years at State Street, and prior to that role, he worked in the legal departments for Fidelity Investments and PNC Global Investment Servicing (US), Inc. Before entering the financial services industry in 1997, Mr. James began his legal career as a trial attorney in Boston. Mr. James serves on (i) the Chief Risk Officer Committee of the Investment Company Institute (“ICI”), (ii) the Legal and Regulatory Committee of the National Investment Company Service Association (“NICSAs”), and (iii) NICSAs’s Compliance and Risk Committee. He has also served on industry panels for BoardIQ, Independent Directors Council of the ICI, NICSAs, State Street, and Boston Financial Data Services. Mr. James holds a law degree from Ohio Northern University Pettit College of Law (1995). He also holds a Bachelor of Science in Political Science from East Tennessee State University (1993). He is a member of the Massachusetts and New York Bars and maintains active Ohio Corporate Counsel Status. Mr. James has been a Trustee since April 22, 2023.

Independent Trustees

David M. Deptula has served as Vice President of Legal and Special Projects for Dayton Freight Lines, Inc. since February 1, 2016. Prior to that position, Mr. Deptula was Vice President of Tax Treasury for Standard Register, Inc. (a company that provides solutions for companies to manage their critical communications, previously The Standard Register Company) since November 2011. (Standard Register, Inc., a newly formed subsidiary of Taylor Corporation, purchased assets of The Standard Register Company on July 31, 2015.) Prior to joining Standard Register, Mr. Deptula was a Tax Partner at Deloitte Tax LLP (“Deloitte”). Mr. Deptula joined Deloitte in 1984 and remained with Deloitte until October of 2011. During his tenure at Deloitte, he was actively involved in providing tax accounting services to open-end mutual funds and other financial services companies. Mr. Deptula holds a B.S. in Accounting from Wright State University and a Juris Doctor from University of Toledo. He is also a Certified Public Accountant. Mr. Deptula has been a Trustee since June 2012. As noted above, Mr. Deptula will retire and resign from the Board and its committees effective on December 31, 2023.

Janine L. Cohen, retired, was an executive at AER Advisors, Inc. (“AER”) from 2004 through her retirement in 2013. Ms. Cohen served as the Chief Financial Officer (“CFO”) from 2004 to 2013 and Chief Compliance Officer (“CCO”) from 2008 to 2013 at AER. During her tenure at AER, she was actively involved in developing financial forecasts, business plans, and SEC registrations. Prior to those roles at AER, Ms. Cohen was a Senior Vice President at State Street Bank. Ms. Cohen has over 30 years of experience in the financial services industry. She holds a B.S. in Accounting and Math from the University of Minnesota and is a Certified Public Accountant. Ms. Cohen has been the Chairperson since October 2019 and a Trustee since January 2016.

Jacqueline A. Williams has served as the Managing Member of Custom Strategies Consulting, LLC since 2017, where she provides consulting services to investment managers. Prior to that, she served as a Managing Director of Global Investment Research for Cambridge Associates, LLC since 2005. Earlier in her career, Ms. Williams served as a Principal at Equinox Capital Management, LLC where she was chairperson of the stock selection committee and the firm's financial services analyst. Ms. Williams also served as an Investment Analyst at IBJ Schroder Bank & Trust Company where she monitored U.S. financial services stocks. Ms. Williams has over 25 years of experience in the investment management industry. Ms. Williams earned an A.B. in Religion from Duke University and a Ph.D. in Religious Studies from Yale University. She has been a Chartered Financial Analyst charter holder since 1990. Ms. Williams has been a Trustee since June 2019.

Clifford N. Schireson, retired, was the founder of Schireson Consulting, LLC, which he launched in 2017 until his retirement in 2021. Prior to that, Mr. Schireson was Director of Institutional Services from 2004 to 2017 at Brandes Investment Partners, LP, an investment advisory firm, where he also was co-head of fixed income and was a member of the fixed-income investment committee. From 1998 to 2004, he was a Managing Director at Weiss, Peck & Greer LLC specializing in fixed-income products for both taxable and municipal strategies for institutional clients. Mr. Schireson has over 20 years of experience in the investment management industry as well as 20 years of experience in the investment banking industry. Mr. Schireson holds an A.B. in Economics from Stanford University and an M.B.A. from Harvard Business School. Mr. Schireson has been a Trustee since June 2019.

Robert E. Morrison serves as a Managing Director at Midwest Trust and FCI Advisors, where he has worked since February 2022. Previously, Mr. Morrison was a Senior Vice President at Huntington Private Bank, where he worked from 2014 to 2022. From 2006 to 2014, he served as the CEO, President and Chief Investment Officer of 5 Star Investment Management. Mr. Morrison has a B.S. in Forestry Management from Auburn University and is a graduate of the Personal Financial Planning program of Old Dominion University. Mr. Morrison previously served on the Ultimus Managers Trust Board of Trustees

as the Founding Chairman of the Trust in 2012. Mr. Morrison resigned from the Board in 2014 as a result of a business conflict that no longer exists. Mr. Morrison has over 32 years of financial services experience, focusing on asset management and wealth management. Mr. Morrison has been a Trustee since June 2019.

Keith Shintani, retired, served as a Senior Vice President of Relationship Management at U.S. Bank Global Fund Services, where he worked from 1998 until June 2022. Previously, Mr. Shintani was a Director of Finance at Charles Schwab Investment Management, where he worked from January 1997 through December 1997. From 1993 to 1995, he served as a Manager of Mutual Fund Operations of PIMCo Advisors L.P. From 1989 to 1993, Mr. Shintani served as a Variable Products Manager of Pacific Life Insurance Company. From 1986 to 1989, he served as a Senior Accountant of Deloitte and Touche. Mr. Shintani has a B.S. in Accounting from University of Southern California. Mr. Shintani's term as a Trustee commences January 1, 2024.

References above to the qualifications, attributes and skills of Trustees are pursuant to requirements of the SEC, do not constitute holding out the Board or any Trustee as having any special expertise or experience, and shall not impose any greater responsibility on any such person or on the Board by reason thereof.

Risk Oversight. The operation of a mutual fund, including its investment activities, generally involves a variety of risks. As part of its oversight of the Fund, the Board oversees risk through various regular board and committee activities. The Board, directly or through its committees, reviews reports from, among others, the Adviser, the Trust's CCO, the Trust's independent registered public accounting firm, and outside legal counsel, regarding risks faced by the Fund and the risk management programs of the Adviser, with respect to the Fund's investments and trading activities, and certain service providers. The actual day-to-day risk management with respect to the Fund resides with the Adviser, with respect to the Fund's investments and trading activities, and other service providers to the Fund. Although the risk management policies of the Adviser and the service providers are designed to be effective, there is no guarantee that they will anticipate or mitigate all risks. Not all risks that may affect the Fund can be identified, eliminated or mitigated and some risks simply may not be anticipated or may be beyond the control of the Board or the Adviser or other service providers. The Independent Trustees meet separately with the Trust's CCO at least annually, outside the presence of management, to discuss issues related to compliance. Furthermore, the Board receives an annual written report from the Trust's CCO regarding the operation of the compliance policies and procedures of the Trust and its primary service providers. As part of its oversight function, the Board also may hold special meetings or communicate directly with Trust management or the Trust's CCO to address matters arising between regular meetings.

The Board also receives quarterly reports from the Adviser on the investments and securities trading of the Fund, including the Fund's investment performance, as well as reports regarding the valuation of the Fund's securities (when applicable). The Board also receives quarterly reports from the Fund's administrator (the "Administrator"), transfer agent (the "Transfer Agent") and distributor (the "Distributor") on regular quarterly items and, where appropriate and as needed, on specific issues. In addition, in its annual review of the Fund's investment advisory agreement (the "Advisory Agreement"), the Board reviews information provided by the Adviser relating to its operational capabilities, financial condition and resources. The Board also conducts an annual self-evaluation that includes a review of its effectiveness in overseeing, among other things, the number of funds in the Trust and the effectiveness of the Board's committee structure.

Trustees' Ownership of Fund Shares. The following table shows each Trustee's beneficial ownership of shares of the Fund and, on an aggregate basis, of shares of all funds within the Trust overseen by the Trustee. Information is provided as of December 31, 2022.

Name of Trustee	Dollar Range of Shares of the Fund Owned by Trustee	Aggregate Dollar Range of Shares Owned of All Funds in Trust Overseen by Trustee
-----------------	---	--

Interested Trustee

David James*	None	None
--------------	------	------

Independent Trustees

David M. Deptula	None	None
Janine L. Cohen	None	\$50,001 - \$100,000
Jacqueline A. Williams	None	None
Clifford N. Schireson	None	None
Robert E. Morrison	None	None

* Mr. James' term as Trustee commenced April 22, 2023.

Ownership In Fund Affiliates. As of December 31, 2022, none of the Independent Trustees, nor members of their immediate families, owned, beneficially or of record, securities of the Adviser, the Distributor or any affiliate of the Adviser or the Distributor.

Trustee Compensation. No director, officer or employee of the Adviser or the Distributor receives any compensation from the Trust for serving as an officer or Trustee of the Trust.

The following table below shows the Trustee compensation schedule from October 20, 2021 through October 16, 2022 for each series of the Trust:

	<u>Annual Retainer</u>	<u>Per Meeting Fee</u>
Independent Trustee (other than Board Chair)	\$1,300	\$550
Chairperson	\$1,700	\$550

The following table below shows the Trustee compensation schedule which commenced on October 17, 2022 for each series of the Trust:

	<u>Annual Retainer</u>	<u>Per Meeting Fee</u>
Independent Trustee (other than Board Chair and Audit Committee Chair)	\$1,300	\$550
Board Chair	\$1,700	\$550
Audit Committee Chair	\$1,500	\$550

The Trust reimburses each Trustee and officer for their travel and other expenses incurred by attending meetings.

The following table provides the amount of compensation paid to each Trustee during the Fund’s fiscal year ended August 31, 2023:

Name of Trustee	Aggregate Compensation from the Fund	Pension or Retirement Benefits Accrued as Part of Fund Expenses	Estimated Annual Benefits Upon Retirement	Total Compensation from All Funds Within the Trust
<i>Interested Trustee</i>				
David James*	None	None	None	None
Independent Trustees				
Janine L. Cohen	\$4,450	None	None	\$127,075
David M. Deptula	\$4,250	None	None	\$120,925
Jacqueline A. Williams	\$4,050	None	None	\$114,775
Clifford N. Schireson	\$4,050	None	None	\$114,775
Robert E. Morrison	\$4,050	None	None	\$114,775

* Mr. James’ term as Trustee commenced April 22, 2023.

Principal Holders of Voting Securities. As of December 1, 2023, the Trustees and officers of the Trust as a group owned beneficially (i.e., had direct or indirect voting and/or investment power) less than 1% of the then-outstanding shares of the Fund. On the same date, the following shareholders owned of record more than 5% of the outstanding shares of beneficial interest of the Fund.

Name and Address of Record Owner	Percentage Ownership
Charles Schwab & Co., Inc./Special Custody A/C FBO Customers 101 Montgomery St. San Francisco, California 94104	22.01%

A shareholder owning of record or beneficially more than 25% of the Fund’s outstanding shares may be considered a controlling person. That shareholder’s vote could have a more significant effect on matters presented at a shareholders’ meeting than the vote of other shareholders.

INVESTMENT ADVISER

Edge Capital Group, LLC, located at 3333 Riverwood Parkway, Suite 350, Atlanta, Georgia, 30339, serves as the investment adviser to the Fund pursuant to an Advisory Agreement, dated September 8, 2023. The Adviser was founded in 2018 as the successor-in-interest to the Fund’s previous investment adviser, Edge Advisors, LLC (the “Previous Adviser”), as a result of Adviser’s acquisition of the Previous Adviser, which was founded in 2006. The Adviser is wholly-owned by Focus Operating, LLC, which in turn is wholly-owned by Focus Financial Partners, LLC. Focus Financial Partners, LLC is controlled by its managing member, Focus Financial Partners Inc., a publicly traded company listed on the NASDAQ Global Select exchange under the symbol FOCS. In 2023, Focus Financial Partners Inc. was acquired by investment vehicles managed and controlled by Clayton, Dubilier & Rice, LLC and Stone Point Capital LLC. In addition to serving as investment adviser to the Fund, the Adviser provides investment advisory services to high net-worth individuals and institutions, such as corporations, defined benefit plans (both private and governmental), profit sharing plans, endowments and charitable foundations.

Subject to the Fund’s investment objective and policies approved by the Board, the Adviser is responsible for providing the Fund with a continuous program of investing the Fund’s assets and determining the composition of the Fund’s portfolio.

The Advisory Agreement remains in effect for periods of one year each only so long as such renewal and continuance is specifically approved at least annually by the Board or by vote of a majority of the Fund’s outstanding voting securities, provided that the continuance is also approved by a majority of the Independent Trustees. The Advisory Agreement is terminable without penalty on 60 days’ notice by the Board or by vote of a majority of the outstanding voting securities of the Fund. The Advisory Agreement provides that it will terminate automatically in the event of its “assignment,” as such term is defined in the 1940 Act.

Under the Advisory Agreement, for its services, the Fund pays the Adviser a monthly investment advisory fee (the “Management Fee”) computed at the annual rate of 0.99% of its average daily net assets. Under an expense limitation agreement (the “Expense Limitation Agreement”), the Adviser has agreed to reduce the Management Fee and reimburse Fund expenses to the extent necessary to limit Total Annual Fund Operating Expenses (exclusive of brokerage costs, taxes, interest, borrowing costs such as interest and dividend expenses on securities sold short, costs to organize the Fund, Acquired Fund fees and expenses, extraordinary expenses such as litigation and merger or reorganization costs and other expenses not incurred in the ordinary course of the Fund’s business, and amounts) to an amount not exceeding 0.99% of the average daily net assets of the Institutional Class shares, until January 1, 2026. Management Fee reductions and expense reimbursements by the Adviser are subject to repayment by the Fund, for a period of 36 months after the date that such fees and expenses were incurred, provided that the repayments do not cause the Fund’s Total Annual Fund Operating Expenses (exclusive of such reductions and reimbursements) to exceed (i) the expense limitation then in effect, if any, and (ii) the expense limitation then in effect at the time the expenses to be repaid were incurred.

The table below provides the compensation paid to the Adviser by the Fund and Management Fee reductions and expense reimbursements made by the Adviser during the following fiscal year ended August 31:

Fiscal Year Ended	Management Fees Accrued	Management Fee Reductions	Expense Reimbursements	Net Advisory Fee Received by Adviser
2023	\$559,357	\$277,576	\$0	\$281,781
2022	\$509,919	\$259,923	\$0	\$249,996
2021	\$463,478	\$299,000	\$0	\$164,478

The Adviser manages the Fund’s investments in accordance with the stated investment objective and policies of the Fund, subject to the oversight of the Board. The Adviser is responsible for investment decisions and provides the Fund with a portfolio manager to execute purchases and sales of securities. The Advisory Agreement provides that the Adviser shall not be liable for any error of judgment or for any loss suffered by the Trust or the Fund in connection with the performance of its duties, except a loss resulting from a breach of fiduciary duty with respect to receipt of compensation for services (in which case any award of damages shall be limited to the period and the amount set forth in Section 36(b)(3) of the 1940 Act) or a loss resulting from willful misfeasance, bad faith or gross negligence on the part of the Adviser in the performance of its duties, or from reckless disregard of its duties and obligations thereunder.

Portfolio Managers

The Fund is co-managed by Henry M. Jones and Dennis Sabo (the “Portfolio Managers”), who have joint responsibility for the day-to-day implementation of investment strategies for the Fund.

Other Accounts Managed by Portfolio Managers

In addition to the Fund, the Portfolio Managers are responsible for the day-to-day management of certain other accounts. The table below shows the number of, and total assets in, such other accounts as of August 31, 2023.

Portfolio Manager	Type of Accounts	Total Number of Other Accounts Managed	Total Assets of Other Accounts Managed (million)	Number of Accounts Managed with Advisory Fee Based on Performance	Total Assets of Accounts Managed with Advisory Fee Based on Performance (million)
Henry M. Jones	Registered Investment Companies	0	\$0	0	\$0
	Other Pooled Investment Vehicles	0	\$0	0	\$0
	Other Accounts	141	\$246	0	\$0
Dennis Sabo	Registered Investment Companies	0	\$0	0	\$0
	Other Pooled Investment Vehicles	0	\$0	0	\$0
	Other Accounts	220	\$407	0	\$0

Potential Conflicts of Interest

Each Portfolio Manager’s management of other accounts (the “Other Accounts”) may give rise to potential conflicts of interest in connection with their management of the Fund’s investments, on the one hand, and the investments of the Other Accounts, on the other. A potential conflict of interest may arise where an Other Account has the same investment strategy as the Fund or otherwise, when a particular investment may be suitable for both the Fund and the Other Accounts, whereby the Portfolio Manager could favor one account over another. Another potential conflict could include the Portfolio Manager’s knowledge about the size, timing and possible market impact of Fund trades, whereby the Portfolio Manager could use this information to the advantage of the Other Accounts and to the disadvantage of the Fund or vice versa. Further, differences in the compensation structures of the Adviser with the Other Accounts may give rise to a conflict of interest by creating an incentive for the Portfolio Managers to allocate investment opportunities they believe might be the most profitable to the client accounts where the Adviser might benefit the most from the investment gains. However, the Adviser has established policies and procedures to ensure that the purchase and sale of securities among all accounts it manages are fairly and equitably allocated.

Compensation

Mr. Jones and Mr. Sabo are not compensated directly by the Fund. Rather, Mr. Jones and Mr. Sabo are compensated by the Adviser with a salary. As owners of the Adviser, they also share in the Adviser's profits. As such, the performance and asset levels of the Fund will directly affect the profits of the Adviser and indirectly the total compensation paid to Mr. Jones and Mr. Sabo.

Ownership of Fund Shares

The table below shows the value of shares of the Fund beneficially owned by the Portfolio Managers of the Fund as of August 31, 2023 stated as one of the following ranges: None; \$1-\$10,000; \$10,001-\$50,000; \$50,001-\$100,000; \$100,001-\$500,000; \$500,001-\$1,000,000; and over \$1,000,000.

Name of Portfolio Manager	Dollar Range of Shares of the Fund
Henry M. Jones	Over \$1,000,000
Dennis Sabo	\$100,001-\$500,000

PORTFOLIO TRANSACTIONS

Pursuant to the Advisory Agreement, the Adviser determines, subject to the general supervision of the Board and in accordance with the Fund's investment objective, policies and restrictions, which securities are to be purchased and sold by the Fund and which brokers are eligible to execute the Fund's portfolio transactions.

Purchases and sales of portfolio securities that are debt securities usually are principal transactions in which portfolio securities are normally purchased directly from the issuer or from an underwriter or market maker for the securities. Purchases from underwriters of portfolio securities generally include a commission or concession paid by the issuer to the underwriter, and purchases from dealers serving as market makers may include the spread between the bid and asked prices. Transactions on stock exchanges involve the payment of negotiated brokerage commissions. Transactions in the OTC market are generally principal transactions with dealers. With respect to the OTC market, the Fund, where possible, will deal directly with the dealers who make a market in the securities involved except under those circumstances where better price and execution are available elsewhere.

Allocation of transactions, including their frequency, to various brokers and dealers is determined by the Adviser in its best judgment consistent with its obligation to seek best execution and in a manner deemed fair and reasonable to shareholders. The primary consideration is prompt execution of orders in an effective manner at the most favorable price. Subject to this consideration, brokers who provide investment research to the Adviser may receive orders for equity transactions on behalf of the Fund. Information so received is in addition to and not in lieu of services required to be performed by the Adviser and does not reduce the fees payable to the Adviser by the Fund. Such information may be useful to the Adviser in serving both the Fund and other clients and, conversely, supplemental information obtained by the placement of brokerage orders of other clients may be useful to the Adviser in carrying out its obligations to the Fund. While the Adviser generally seeks competitive commissions, the Fund may not necessarily pay the lowest commission available on each brokerage transaction for the reasons discussed above.

Consistent with the foregoing, under Section 28(e) of the Securities Exchange Act of 1934, as amended, the Adviser is authorized to pay a brokerage commission in excess of that which another broker might have charged for effecting the same transaction, in recognition of the value of brokerage and/or research services provided by the broker. The research received by the Adviser may include, without

limitation: information on the U.S. and other world economies; information on specific industries, groups of securities, individual companies, political and other relevant news developments affecting markets and specific securities; technical and quantitative information about markets; analysis of proxy proposals affecting specific companies; accounting and performance systems that allow the Adviser to determine and track investment results; and trading systems that allow the Adviser to interface electronically with brokerage firms, custodians and other providers. Research is received in the form of written reports, telephone contacts, personal meetings, research seminars, software programs and access to computer databases. In some instances, research products or services received by the Adviser may also be used by the Adviser for functions that are not research related (i.e., not related to the making of investment decisions). Where a research product or service has a mixed use, the Adviser will make a reasonable allocation according to its use and will pay for the non-research function in cash using its own funds.

Subject to the requirements of the 1940 Act and procedures adopted by the Board, the Fund may execute portfolio transactions through any broker or dealer and pay brokerage commissions to a broker (i) which is an affiliated person of the Trust, or (ii) which is an affiliated person of such person, or (iii) an affiliated person of which is an affiliated person of the Trust, the Adviser or the Trust’s principal underwriter.

During the years ended August 31 as listed below, the Fund paid the following brokerage commissions:

Fiscal Year Ended	Brokerage Commissions Paid by Fund
2023	\$35,906
2022	\$37,778 [^]
2021	\$26,793

[^] Brokerage Commissions for the fiscal year ended August 31, 2022 were higher due to an increase in portfolio transactions during the year.

THE DISTRIBUTOR

The Distributor, located at 225 Pictoria Drive, Suite 450, Cincinnati, Ohio 45246, is the exclusive agent for distribution of shares of the Fund pursuant to a Distribution Agreement (the “Distribution Agreement”). The Distributor is obligated to sell shares of the Fund on a best efforts basis only against purchase orders for the shares. Shares of the Fund are offered to the public on a continuous basis. The Distributor is compensated for its services to the Trust under a written agreement for such services. The Distributor is an affiliate of Ultimus.

By its terms, the Distribution Agreement is effective for periods of one year so long as such renewal and continuance is approved at least annually by (1) the Board or (2) a vote of the majority of the Fund’s outstanding voting shares; provided that in either event continuance is also approved by a majority of the Independent Trustees, by a vote cast in person at a meeting called for the purpose of voting on such approval. The Distribution Agreement may be terminated at any time, on sixty days’ written notice, without payment of any penalty, by the Trust or by the Distributor. The Distribution Agreement automatically terminates in the event of its assignment, as defined by the 1940 Act and the rules thereunder. Under the Distribution Agreement, the Distributor is paid \$9,000 per annum for its services by the Fund and/or the Adviser to the Fund.

OTHER SERVICE PROVIDERS

Administrator, Fund Accountant and Transfer Agent

Ultimus, located at 225 Pictoria Drive, Suite 450, Cincinnati, Ohio 45246, serves as Administrator, fund accountant (the “Fund Accountant”) and Transfer Agent to the Fund pursuant to a Master Services Agreement.

As Administrator, Ultimus assists in supervising all operations of the Fund (other than those performed by the Adviser under the Advisory Agreement). Ultimus has agreed to perform or arrange for the performance of the following services (under the Master Services Agreement, Ultimus may delegate all or any part of its responsibilities thereunder):

- prepares and assembles reports required to be sent to the Fund’s shareholders and arranges for the printing and dissemination of such reports;
- assembles reports required to be filed with the SEC and files such completed reports with the SEC;
- files the Fund’s federal income and excise tax returns and the Fund’s state and local tax returns;
- assists and advises the Fund regarding compliance with the 1940 Act and with its investment policies and limitations; and
- makes such reports and recommendations to the Board as the Board reasonably requests or deems appropriate.

As Fund Accountant, Ultimus maintains the accounting books and records for the Fund, including journals containing an itemized daily record of all purchases and sales of portfolio securities, all receipts and disbursements of cash and all other debits and credits, general and auxiliary ledgers reflecting all asset, liability, reserve, capital, income and expense accounts, including interest accrued and interest received, and other required separate ledger accounts. Ultimus also maintains a monthly trial balance of all ledger accounts; performs certain accounting services for the Fund, including calculation of the NAV per share, calculation of the dividend and capital gain distributions, reconciles cash movements with the custodian, verifies and reconciles with the custodian all daily trade activities; provides certain reports; obtains dealer quotations or prices from pricing services used in determining NAV; and prepares an interim balance sheet, statement of income and expense, and statement of changes in net assets for the Fund.

As Transfer Agent, Ultimus performs the following services in connection with the Fund’s shareholders: maintains records for the Fund’s shareholders of record; processes shareholder purchase and redemption orders; processes transfers and exchanges of shares of the Fund on the shareholder files and records; processes dividend payments and reinvestments; and assists in the mailing of shareholder reports and proxy solicitation materials.

Ultimus receives fees from the Fund for its services as Administrator, Fund Accountant and Transfer Agent, and is reimbursed for certain expenses assumed pursuant to the Master Services Agreement.

The Master Services Agreement between the Trust, on behalf of the Fund, and Ultimus unless otherwise terminated as provided in the Master Services Agreement, is renewed automatically for successive one-year periods.

The Master Services Agreement provides that Ultimus shall not be liable for any error of judgment or mistake of law or any loss suffered by the Trust in connection with the matters to which the Master Services Agreement relates, except a loss from willful misfeasance, bad faith or gross negligence in the performance of its duties, or from the reckless disregard by Ultimus of its obligations and duties thereunder.

During the fiscal years listed below, Ultimus received the following fees from the Fund for its services as Administrator, Fund Accountant, and Transfer Agent:

Fiscal Year Ended August 31	Administration	Fund Accounting	Transfer Agent
2023	\$56,509	\$42,762	\$18,665
2022	\$52,180	\$41,812	\$18,315
2021	\$39,854	\$34,547	\$15,300

Custodian

U.S. Bank, N.A. (the “Custodian”), located at 425 Walnut Street, Cincinnati, Ohio 45242, serves as custodian to the Fund pursuant to a Custody Agreement. The Custodian’s responsibilities include safeguarding and controlling the Fund’s cash and securities, handling the receipt and delivery of securities, and collecting interest and dividends on the Fund’s investments.

Independent Registered Public Accounting Firm

Cohen & Company, Ltd., located at 1835 Market Street, Suite 310, Philadelphia, Pennsylvania 19103, serves as the independent registered public accounting firm for the Fund and audits the financial statements of the Fund and assists in the preparation of the Fund’s federal, state and excise tax returns for the fiscal year ending August 31, 2024.

Legal Counsel

Sullivan & Worcester, LLP, located at 1666 K Street, NW, Suite 700, Washington, DC 20006, serves as legal counsel to the Trust and the Trust’s Independent Trustees.

Compliance Consulting Agreement

Under the terms of a Compliance Consulting Agreement with the Trust, Northern Lights Compliance Services, LLC (“NLCS”), located at 225 Pictoria Drive, Suite 450, Cincinnati, Ohio 45246 provides an individual with the requisite background and familiarity with the federal securities laws to serve as the Trust’s CCO and to administer the Trust’s compliance policies and procedures. For these services, the Fund pays Ultimus a base fee of \$12,000 per annum, plus an asset-based fee computed at an annual rate of 0.05% of the average net assets of the Fund over \$500 million up to \$1.5 billion; 0.025% of the average net assets of the Fund over \$1.5 billion up to \$3 billion; and 0.0125% of the average net assets of the Fund over \$3 billion. In addition, the Fund reimburses NLCS for its reasonable out-of-pocket expenses related to these compliance services. Under a previous Compliance Consulting Agreement between the Trust and Ultimus, an affiliate of NLCS, the Fund paid Ultimus \$12,420 for compliance services for the fiscal year ended August 31, 2023.

GENERAL INFORMATION

Other Payments by the Fund

The Fund may enter into agreements with financial intermediaries pursuant to which the Fund may pay financial intermediaries for non-distribution-related sub-transfer agency, administrative, sub-accounting, and other shareholder services. Payments made pursuant to such agreements are generally based on either (1) a percentage of the average daily net assets of Fund shareholders serviced by a financial intermediary, or (2) the number of Fund shareholders serviced by a financial intermediary. Any payments made pursuant to such agreements may be in addition to, rather than in lieu of, distribution fees the Fund may pay to financial intermediaries pursuant to any distribution plan of the Fund.

Other Payments by the Adviser

The Adviser and/or its affiliates, in their discretion, may make payments from their own resources and not from Fund assets to affiliated or unaffiliated brokers, dealers, banks (including bank trust departments), trust companies, registered investment advisers, financial planners, retirement plan administrators, insurance companies, and any other institution having a service, administration, or any similar arrangement with the Fund, their service providers or their respective affiliates, as incentives to help market and promote the Fund and/or in recognition of their distribution, marketing, administrative services, and/or processing support.

These additional payments may be made to financial intermediaries that sell Fund shares or provide services to the Fund, the Distributor or shareholders of the Fund through the financial intermediary's retail distribution channel and/or fund supermarkets. Payments may also be made through the financial intermediary's retirement, qualified tuition, fee-based advisory, wrap fee bank trust, or insurance (e.g., individual or group annuity) programs. These payments may include, but are not limited to, placing the Fund in a financial intermediary's retail distribution channel or on a preferred or recommended fund list; providing business or shareholder financial planning assistance; educating financial intermediary personnel about the Fund; providing access to sales and management representatives of the financial intermediary; promoting sales of Fund shares; providing marketing and educational support; maintaining share balances and/or for sub-accounting, administrative or shareholder transaction processing services. A financial intermediary may perform the services itself or may arrange with a third-party to perform the services.

The Adviser and/or its affiliates may also make payments from their own resources to financial intermediaries for costs associated with the purchase of products or services used in connection with sales and marketing, participation in and/or presentation at conferences or seminars, sales or training programs, client and investor entertainment and other sponsored events. The costs and expenses associated with these efforts may include travel, lodging, sponsorship at educational seminars and conferences, entertainment and meals to the extent permitted by law.

Revenue sharing payments may be negotiated based on a variety of factors, including the level of sales, the amount of Fund assets attributable to investments in the Fund by financial intermediaries' customers, a flat fee or other measures as determined from time to time by the Adviser and/or its affiliates. A significant purpose of these payments is to increase the sales of Fund shares, which in turn may benefit the Adviser through increased fees as Fund assets grow.

Investors should understand that some financial intermediaries may also charge their clients fees in connection with purchases of shares or the provision of shareholder services.

Description of Shares

The Trust is an unincorporated business trust organized under Ohio law on February 28, 2012. The Declaration of Trust authorizes the Board to divide shares into series, each series relating to a separate portfolio of investments, and to further divide shares of a series into separate classes. The Fund currently has one class of share, the Institutional Class shares, which are described in the Prospectus. Additional classes of shares may be created at any time. In the event of a liquidation or dissolution of the Trust or an individual series or class, shareholders of a particular series or class would be entitled to receive the assets available for distribution belonging to such series or class. Shareholders of a series or class are entitled to participate equally in the net distributable assets of the particular series or class involved on liquidation, based on the number of shares of the series or class that are held by each shareholder. If any assets, income, earnings, proceeds, funds or payments are not readily identifiable as belonging to any particular series or class, the Board shall allocate them among any one or more series or classes as the Board, in its sole discretion, deems fair and equitable. Subject to the Declaration of Trust, determinations by the Board as to the allocation of liabilities, and the allocable portion of any general assets, with respect to the Fund are conclusive.

The Declaration of Trust authorizes the issuance of an unlimited number of funds and shares of each fund, each of which represents an equal proportionate interest in that fund with each other share. Shares are entitled upon liquidation to a pro rata share in the net assets of the fund. The Declaration of Trust provides that the Trustees may create additional series or classes of shares. Shares of the Fund, when issued, are fully paid and non-assessable. Shares have no subscription, preemptive or conversion rights. Shares do not have cumulative voting rights. Shareholders are entitled to one vote for each full share held and a fractional vote for each fractional share held. Shareholders of all series and classes of the Trust, including the Fund, will vote together and not separately, except as otherwise required by law or when the Board determines that the matter to be voted upon affects only the interests of the shareholders of a particular series or class. Rule 18f-2 under the 1940 Act provides, in substance, that any matter required to be submitted to the holders of the outstanding voting securities of an investment company such as the Trust shall not be deemed to have been effectively acted upon unless approved by the holders of a majority of the outstanding shares of each series or class affected by the matter. A series or class is affected by a matter unless it is clear that the interests of each series or class in the matter are substantially identical or that the matter does not affect any interest of the series or class. Under Rule 18f-2, the approval of an investment advisory agreement, a distribution plan or any change in a fundamental investment policy would be effectively acted upon with respect to a series or class only if approved by a majority of the outstanding shares of such series or class. However, the Rule also provides that the ratification of the appointment of independent accountants and the election of Trustees may be effectively acted upon by shareholders of the Trust voting together, without regard to a particular series or class.

Trustee Liability

The Declaration of Trust provides that the Trustees will not be liable in any event in connection with the affairs of the Trust, except as such liability may arise from his or her own bad faith, willful misfeasance, gross negligence or reckless disregard of their duties to the Trust and its holders of beneficial interest. It also provides that all third parties shall look solely to the Trust's property for satisfaction of claims arising in connection with the affairs of the Trust. With the exceptions stated, the Declaration of Trust provides that a Trustee or officer is entitled to be indemnified against all liability in connection with the affairs of the Trust.

Trust Liability

Under Ohio law, liabilities of the Trust to third persons, including the liabilities of any series, extend to the whole of the trust estate to the extent necessary to discharge such liabilities. However, the Declaration of Trust contains provisions intended to limit the liabilities of each series to the applicable series and the Trustees and officers of the Trust intend that notice of such limitation be given in each contract, instrument, certificate, or undertaking made or issued on behalf of the Trust by the Trustees or officers. There is no guarantee that the foregoing steps will prove effective or that the Trust will be successful in preventing the assets of one series from being available to creditors of another series.

Code of Ethics

The Trust, the Adviser, and the Distributor have each adopted a Code of Ethics (each a “COE”, and collectively the “COEs”) that is designed to prevent their respective personnel subject to the COEs from engaging in deceptive, manipulative, or fraudulent activities in connection with securities held or to be acquired by the Fund (which securities may also be held by persons subject to the COEs). These COEs permit personnel subject to the COEs to invest in securities, including securities that may be purchased or held by the Fund, but prohibit such personnel from engaging in personal investment activities which compete with or attempt to take advantage of the Fund’s planned portfolio transactions. Each of these parties monitors compliance with its respective COE.

Anti-Money Laundering Program

The Trust has adopted an anti-money laundering (“AML”) program, as required by applicable law, that is designed to prevent the Fund from being used for money laundering or the financing of terrorist activities. The Trust’s AML Compliance Officer is responsible for implementing and monitoring the operations and internal controls of the program. Compliance officers at certain of the Fund’s service providers are also responsible for monitoring aspects of the AML program. The AML program is subject to the continuing oversight of the Board.

Proxy Voting Policies and Procedures

The Trust and the Adviser have adopted Proxy Voting Policies and Procedures that describe how the Fund intends to vote proxies relating to portfolio securities. The Proxy Voting Policies and Procedures of the Trust and the Adviser are attached to this SAI as Appendix B and Appendix C, respectively. No later than August 31st of each year, information regarding how the Fund voted proxies relating to portfolio securities during the prior twelve-month period ended June 30th is available without charge upon request by calling 1-800-514-3583, or on the SEC’s website at www.sec.gov.

Portfolio Holdings Disclosure Policy

The Board has adopted policies with respect to the disclosure of the Fund’s portfolio holdings. These policies generally prohibit the disclosure of information about the Fund’s portfolio to third parties prior to (i) the filing of the information with the Securities and Exchange Commission (the “SEC”) in a required filing, or (ii) the day after the information is posted to the Fund’s website. The Fund is required to include a schedule of portfolio holdings in its annual and semi-annual reports to shareholders, which are sent to shareholders within 60 days of the end of the second and fourth fiscal quarters and filed with the SEC on Form N-CSR within 70 days of the end of the second and fourth fiscal quarters. The Fund is also required to file a schedule of portfolio holdings with the SEC on Form N-PORT within 60 days of the end

of the first and third fiscal quarters. The Fund must provide a copy of the complete schedule of portfolio holdings as filed with the SEC to any shareholder of the Fund, upon request, free of charge.

As described below, the policies allow for disclosure of non-public portfolio information to third parties if the following criteria are met, as determined by the Trust's Chief Compliance Officer (the "CCO"): (1) there is a legitimate business purpose for the disclosure; (2) the party receiving the portfolio holdings information is subject to a one or more Conditions of Confidentiality (as defined below); and (3) disclosure is consistent with the antifraud provisions of the federal securities laws and, with respect to disclosure made or directed to be made by the Adviser, the Adviser's fiduciary duties. "Conditions of Confidentiality" include (1) confidentiality clauses in written agreements, (2) confidentiality implied by the nature of the relationship (e.g., attorney-client relationship), or (3) confidentiality required by fiduciary or regulatory principles (e.g., custody relationships).

Under the policies, the Trust, the Fund, the Adviser and any service provider to the Trust are prohibited from receiving compensation or other consideration in connection with disclosing information about the Fund's portfolio to third parties.

Consistent with these policies, the Fund may include in marketing literature and other communications to shareholders or other parties a full schedule of portfolio holdings, top ten portfolio positions and certain other portfolio characteristics (such as sector or geographic weightings) that have already been made public through the Fund's website or through an SEC filing, provided that, in the case of portfolio information made public solely through the Fund's website, the information is disclosed no earlier than the day after the date of posting to the website.

The Fund releases non-public portfolio holdings information to certain third-party service providers on a daily basis in order for those parties to perform their duties on behalf of the Fund. These service providers include the Adviser, Distributor, Transfer Agent, Fund Accountant, Administrator and Custodian. The Fund also periodically discloses portfolio holdings information on a confidential basis to other third parties that provide services to the Fund, such as the Fund's auditors, legal counsel, proxy voting services (if applicable), printers, brokers and pricing services. The lag between the date of the information and the date on which the information is disclosed will vary based on the nature of the services provided by the party to whom the information is disclosed. For example, the information may be provided to the Fund's auditors within days after the end of the Fund's fiscal year in connection with the Fund's annual audit, while the information may be given to legal counsel or prospective third-party service providers without any time lag.

Below is a table that lists the service provider that currently receive non-public portfolio information along with information regarding the frequency of access to, and limitations on use of, portfolio information.

Type of Service Provider	Typical Frequency of Access to Portfolio Information	Restrictions on Use
Adviser	Daily	Contractual and Ethical
Administrator and Distributor	Daily	Contractual and Ethical
Custodian	Daily	Ethical
Accountants	During annual audit	Ethical
Legal counsel	Regulatory filings, board meetings, and if a legal issue regarding the portfolio requires counsel's review	Ethical
Printers/Typesetters	Twice a year – printing of Semi-Annual and Annual Reports	No formal restrictions in place – typesetter or printer would not receive portfolio information until at least 30 days old
Broker/dealers through which the Fund purchases and sells portfolio securities	Daily access to the relevant purchase and/or sale – no broker/dealer has access to the Fund's entire portfolio	Contractual and Ethical
N-PORT and N-CEN Vendors	Monthly or Annually	Contractual and Ethical
Pricing and Liquidity Vendors	Daily	Contractual and Ethical

The Fund may also enter into ongoing arrangements to release portfolio holdings to Morningstar, Inc., Lipper, Inc., Bloomberg, Standard & Poor's, Thompson Financial and Vickers-Stock ("Rating Agencies") in order for those organizations to assign a rating or ranking to the Fund. In these instances, information about the Fund's portfolio would generally be supplied within approximately 25 days after the end of the month. The Rating Agencies may make the Fund's top portfolio holdings and other portfolio characteristics available on their websites and may make the Fund's complete portfolio holdings available to their subscribers for a fee. Neither the Fund, the Adviser, a sub-adviser, nor any of their affiliates receive any portion of this fee.

Upon approval of the CCO, the Fund may also disclose portfolio information pursuant to regulatory request, court order or other legal proceeding.

Except as described above, the Fund is prohibited from entering into any arrangements with any person to make available information about the Fund's portfolio holdings without the prior authorization of the CCO. The Adviser must submit any proposed arrangement pursuant to which it intends to disclose the Fund's portfolio holdings to the CCO, who will review such arrangement to determine whether the arrangement is in the best interests of Fund shareholders. To the extent that the disclosure of the Fund's portfolio holdings information creates a conflict between the Fund, on the one hand, and the Fund's adviser, principal underwriter, and any other affiliated person of the Fund, their investment adviser, or their principal underwriter on the other hand, the CCO shall determine how to resolve the conflict in the best interests of the Fund, and shall report such determination to the Board at the end of the quarter in which such determination was made.

To oversee the Disclosure Policy and the Fund Policy, the Trustees consider reports and recommendations by the CCO regarding the adequacy and implementation of the compliance programs of the Trust and its service procedures adopted pursuant to Rule 38a-1 under the 1940 Act. The Trustees reserve the right to amend the Disclosure Policy at any time without prior notice to shareholders in its sole discretion.

Other Expenses

In addition to the Management Fee, the Fund pays all expenses associated with the Fund not expressly assumed by the Adviser, including, without limitation, the fees and expenses of its independent registered public accounting firm and of its legal counsel; the fees of the Administrator, Distributor and Transfer Agent, the costs of printing and mailing to shareholders Annual and Semi-Annual Reports, proxy statements, prospectuses, SAIs and supplements thereto; bank transaction charges and custody fees; any costs associated with shareholder meetings, including proxy solicitors' fees and expenses; registration and filing fees; federal, state or local income or other taxes; interest; membership fees of the Investment Company Institute and similar organizations; fidelity bond and liability insurance premiums; and any extraordinary expenses, such as indemnification payments or damages awarded in litigation or settlements made.

Trust Contracts

The Trust enters into contractual arrangements with various parties, including, among others, the Fund's investment adviser, custodian, transfer agent, accountants, administrator and distributor, who provide services to the Fund. Shareholders are not parties to, or intended (or "third-party") beneficiaries of, any of those contractual arrangements, and those contractual arrangements are not intended to create in any individual shareholder or group of shareholders any right to enforce the terms of the contractual arrangements against the service providers or to seek any remedy under the contractual arrangements against the service providers, either directly or on behalf of the Trust.

This SAI and the Prospectus provide information concerning the Trust and the Fund that you should consider in determining whether to purchase shares of the Fund. The Fund may make changes to this information from time to time. Neither this SAI, the Prospectus or any document filed as an exhibit to the Trust's registration statement, is intended to, nor does it, give rise to an agreement or contract between the Trust or the Fund and any shareholder, or give rise to any contract or other rights in any individual shareholder, group of shareholders or other person other than any rights conferred explicitly by federal or state securities laws that may not be waived.

ADDITIONAL TAX INFORMATION

The following summarizes certain additional tax considerations generally affecting the Fund and its shareholders that are not described in the Prospectus. No attempt is made to present a detailed explanation of the tax treatment of the Fund or its shareholders. The discussions here and in the Prospectus are not intended as a substitute for careful tax planning and are based on tax laws and regulations that are in effect on the date hereof; such laws and regulations may be changed by legislative, judicial, or administrative action. Investors are advised to consult their tax advisors with specific reference to their own tax situations.

Qualification as a Regulated Investment Company

The Fund has qualified and intends to remain qualified as a regulated investment company under Subchapter M of the Internal Revenue Code of 1986, as amended (the "Code"). In order to so qualify, the

Fund must elect to be a regulated investment company or have made such an election for a previous year and must satisfy certain requirements relating to the amount of distributions and source of its income for a taxable year. At least 90% of the gross income of the Fund must be derived from dividends, interest, payments with respect to securities loans, gains from the sale or other disposition of stocks, securities, or foreign currencies, and other income derived with respect to the Fund's business of investing in such stock, securities, or currencies, and net income derived from an investment in a "qualified publicly traded partnership" as defined in section 851(h) of the Code (the "source-of-income test"). Any income derived by the Fund from a partnership (other than a "qualified publicly traded partnership") or trust is treated as derived with respect to the Fund's business of investing in stock, securities, or currencies only to the extent that such income is attributable to items of income that would have been qualifying income if realized by the Fund in the same manner as by the partnership or trust.

The Fund may not qualify as a regulated investment company for any taxable year unless it satisfies certain requirements with respect to the diversification of its investments at the close of each quarter of the taxable year (the "asset diversification tests"). In general, at least 50% of the value of the Fund's total assets must be represented by cash, cash items, government securities, securities of other regulated investment companies, and other securities which, with respect to any one issuer, do not represent more than 5% of the total assets of the Fund nor more than 10% of the outstanding voting securities of such issuer. In addition, not more than 25% of the value of the Fund's total assets may be invested in the securities (other than government securities or the securities of other regulated investment companies) of any one issuer; the securities of two or more issuers (other than securities of another regulated investment company) if the issuers are controlled by the Fund and they are, pursuant to Treasury Regulations, engaged in the same or similar or related trades or businesses; or the securities of one or more qualified publicly traded partnerships.

The Fund intends to satisfy all of the requirements of the source-of-income test and the asset diversification tests on an ongoing basis for continued qualification as a regulated investment company.

If the Fund fails to meet either the asset diversification test with respect to a taxable quarter or the source-of-income test with respect to a taxable year, the Code provides several remedies, provided certain procedural requirements are met, which will allow the Fund to retain its status as a "regulated investment company." There is a remedy for failure to satisfy the asset diversification tests, if the failure was due to reasonable cause and not willful neglect, subject to certain divestiture and procedural requirements and the payment of a tax. In addition, there is a remedy for a de minimis failure of the asset diversification tests, which would require corrective action but no tax. In addition, the Code allows for the remedy of a failure of the source-of-income test, if the failure was due to reasonable cause and not willful neglect, subject to certain procedural requirements and the payment of a tax.

If for any taxable year the Fund does not qualify for the special federal income tax treatment afforded regulated investment companies, all of its taxable income will be subject to federal income tax at regular corporate rates (without any deduction for distributions to its shareholders). Such distributions will be taxable to the shareholders as dividends to the extent of the Fund's current and accumulated earnings and profits. Such distributions may be eligible for (i) the dividends-received deduction ("DRD") in the case of corporate shareholders or (ii) treatment as "qualified dividend income" in the case of noncorporate shareholders, provided in each case that certain holding period and other requirements are met. Failure to qualify as a regulated investment company would have a negative impact on the Fund's income and performance. It is possible that the Fund will not qualify as a regulated investment company in any given tax year.

Fund Distributions

The Fund anticipates distributing substantially all of its investment company taxable income and net tax-exempt interest (if any) for each tax year. Distributions paid to you generally may be characterized as ordinary income. A portion of these distributions may qualify for the DRD when paid to certain corporate shareholders.

Under current tax law, qualifying corporate dividends are taxable at long-term capital gains tax rates. The long-term capital gains rate for individual taxpayers is currently at a maximum rate of 20%, with lower rates potentially applicable to taxpayers depending on their income levels.

Taxable dividends paid by the Fund to corporate shareholders will be taxed at corporate income tax rates. Corporate shareholders may be entitled to a DRD for a portion of the dividends paid and designated by the Fund as qualifying for the DRD.

If the Fund designates a dividend as a capital gains distribution, it generally will be taxable to shareholders as long-term capital gains, regardless of how long the shareholders have held their Fund shares or whether the dividend was received in cash or reinvested in additional shares. All taxable dividends paid by the Fund other than those designated as qualified dividend income or capital gains distributions will be taxable as ordinary income to shareholders, whether received in cash or reinvested in additional shares. To the extent the Fund engages in increased portfolio turnover, short-term capital gains may be realized, and any distribution resulting from such gains will be considered ordinary income for federal tax purposes.

Certain U.S. shareholders, including individuals and estates and trusts, will be subject to an additional 3.8% Medicare tax on all or a portion of their “net investment income,” which should include dividends from the Fund and net gains from the disposition of shares of the Fund. U.S. shareholders are urged to consult their own tax advisors regarding the implications of the additional Medicare tax resulting from an investment in the Fund.

Individuals (and certain other non-corporate entities) are generally eligible for a 20% deduction with respect to taxable ordinary dividends from REITs and certain taxable income from publicly traded partnerships. Regulated investment companies that receive qualified REIT dividend income may designate such amounts as Section 199A dividends. Qualified REIT dividend income is the excess of qualified REIT dividends received by the regulated investment company over the amount of the regulated investment company’s deductions that are properly allocable to such income. If the Fund designates a dividend as a Section 199A distribution, it may be treated by shareholders as a qualified REIT dividend that is taxed as ordinary income and for non-corporate taxpayers eligible for the 20% deduction for “qualified business income” under Code section 199A. Generally, only non-corporate shareholders who have held their shares for more than 45 days during the 91-day period beginning on the date which is 45 days prior to the ex-dividend date for such dividend are eligible for such treatment.

Shareholders who hold Fund shares in a tax-deferred account, such as a retirement plan, generally will not have to pay tax on Fund distributions until they receive distributions from their account.

The Fund will designate (1) any distribution that constitutes a qualified dividend as qualified dividend income; (2) any tax-exempt distribution as an exempt-interest dividend; (3) any distribution of long-term capital gains as a capital gain dividend; (4) any dividend eligible for the corporate dividends received deduction; and (5) any distribution that is comprised of qualified REIT dividend income as a

Section 199A dividend as such in a written notice provided to shareholders after the close of the Fund's taxable year. Shareholders should note that, upon the sale or exchange of the Fund's shares, if the shareholder has not held such shares for at least six months, any loss on the sale or exchange of those shares will be treated as long-term capital loss to the extent of the capital gain dividends received with respect to the shares.

The Fund will send shareholders information each year on the tax status of dividends and distributions. A dividend or capital gains distribution paid shortly after shares have been purchased, although in effect a return of investment, is subject to federal income taxation. Dividends from net investment income, along with capital gains, will be taxable to shareholders, whether received in cash or reinvested in Fund shares and no matter how long the shareholder has held the Fund's shares, even if they reduce the NAV of shares below the shareholder's cost, and thus, in effect, result in a return of a part of the shareholder's investment.

To the extent that a distribution from the Fund is taxable, it is generally included in a shareholder's gross income for the taxable year in which the shareholder receives the distribution. However, if the Fund declares a dividend in October, November, or December, but pays it in January, it will be taxable to shareholders as if the dividend was received in the year it was declared. Each year, shareholders will receive a statement detailing the tax status of any Fund distributions for that year.

The Fund's net realized capital gains from securities transactions will be distributed only after reducing such gains by the amount of any available capital loss carryforwards. Capital losses may be carried forward to offset any capital gains.

Excise Tax

A 4% nondeductible excise tax is imposed on regulated investment companies that fail to currently distribute an amount equal to specified percentages of their ordinary taxable income and capital gain net income (excess of capital gains over capital losses). The Fund intends to make sufficient distributions or deemed distributions of its ordinary taxable income and any capital gain net income prior to the end of each calendar year to avoid liability for this excise tax. Investors should note, however, that the Fund might in certain circumstances be required to liquidate portfolio investments to make sufficient distributions to avoid the imposition of any excise tax liability.

Sale, Exchange, or Repurchase of Shares

In general, a shareholder who sells or redeems shares will realize a capital gain or loss, which will be long-term or short-term depending upon the shareholder's holding period for the Fund's shares. An exchange of shares is treated as a sale and any gain may be subject to tax. An exchange of shares is generally treated as a sale and any gain may be subject to tax. All or a portion of any loss so recognized may be disallowed if you purchase (for example, by reinvesting dividends) shares of the same Fund within 30 days before or after the sale, exchange or repurchase (a "wash sale"). If disallowed, the loss will be reflected in an upward adjustment to the basis of the shares purchased.

Shareholders should note that, upon the sale of the Fund's shares, if the shareholder has not held such shares for at least six months, any loss on the sale or exchange of those shares will be treated as a long-term capital loss to the extent of the capital gains dividends received with respect to the shares. Any capital loss arising from the sale, exchange or repurchase of shares held for six months or less, however, will be

treated as a long-term capital loss to the extent of the amount of distributions of net capital gain received on such shares. In determining the holding period of such shares for this purpose, any period during which your risk of loss is offset by means of options, short sales or similar transactions is not counted. Capital losses in any tax year are deductible only to the extent of capital gains plus, in the case of a non-corporate taxpayer, \$3,000 of ordinary income.

The repurchase or transfer of shares may result in a taxable gain or loss to a tendering shareholder. Different tax consequences may apply for tendering and non-tendering shareholder in connection with a repurchase offer. For example, if a shareholder does not tender all of his or her shares, such repurchase may not be treated as a sale or exchange for U.S. federal income tax purposes, and may result in deemed distributions to non-tendering shareholder. On the other hand, shareholder holding shares as capital assets who tender all of their shares (including shares deemed owned by shareholders under constructive ownership rules) will be treated as having sold their shares and generally will recognize capital gain or loss. The amount of the gain or loss will be equal to the difference between the amount received for the shares and the shareholder adjusted tax basis in the relevant shares. Such gain or loss generally will be a long-term capital gain or loss if the shareholder has held such shares as capital assets for more than one year. Otherwise, the gain or loss will be treated as short-term capital gain or loss.

Backup Withholding

The Fund will be required in certain cases to withhold and remit to the U.S. Treasury a percentage (currently 24%) of taxable dividends or of gross proceeds realized upon sale paid to shareholders who have failed to provide a correct taxpayer identification number in the manner required, who are subject to withholding by the IRS for failure to include properly on their return payments of taxable interest or dividends, or who have failed to certify to the Fund that they are not subject to backup withholding when required to do so, or that they are “exempt recipients.”

Foreign Taxes

Dividends and interest received by the Fund may be subject to income, withholding or other taxes imposed by foreign countries and U.S. possessions that would reduce the yield on the Fund’s stock or securities. Tax conventions between certain countries and the U.S. may reduce or eliminate these taxes. Foreign countries generally do not impose taxes on capital gains with respect to investments by foreign investors. If more than 50% of the value of the Fund’s total assets at the close of its taxable year consists of stocks or securities of foreign corporations, the Fund will be eligible to file an election with the IRS that may enable shareholders, in effect, to receive either the benefit of a foreign tax credit, or a deduction from such taxes, with respect to any foreign and U.S. possessions income taxes paid by the Fund, subject to certain limitations. Pursuant to the election, the Fund will treat those taxes as dividends paid to its shareholders. Each such shareholder will be required to include a proportionate share of those taxes in gross income as income received from a foreign source and must treat the amount so included as if the shareholder had paid the foreign tax directly. The shareholder may then either deduct the taxes deemed paid by him or her in computing his or her taxable income or, alternatively, use the foregoing information in calculating any foreign tax credit they may be entitled to use against the shareholders’ federal income tax. If the Fund makes the election, the Fund (or its administrative agent) will report annually to its shareholders the respective amounts per share of the Fund’s income from sources within, and taxes paid to, foreign countries and U.S. possessions. If the Fund does not hold sufficient foreign securities to meet the above threshold, then shareholders will not be entitled to claim a credit or further deduction with respect to foreign taxes paid by the Fund.

A shareholder's ability to claim a foreign tax credit or deduction in respect of foreign taxes paid by the Fund may be subject to certain limitations imposed by the Code, which may result in a shareholder not receiving a full credit or deduction (if any) for the amount of such taxes. In particular, shareholders must hold their Fund shares (without protection from risk of loss) on the ex-dividend date and for at least 15 additional days during the 30-day period surrounding the ex-dividend date to be eligible to claim a foreign tax credit with respect to a given dividend. Shareholders who do not itemize on their federal income tax returns may claim a credit (but no deduction) for such foreign taxes. Even if the Fund were eligible to make such an election for a given year, it may determine not to do so. Shareholders that are not subject to U.S. federal income tax, and those who invest in the Fund through tax-advantaged accounts (including those who invest through individual retirement accounts or other tax-advantaged retirement plans), generally will receive no benefit from any tax credit or deduction passed through by the Fund.

State and Local Taxes

Depending upon the extent of the Fund's activities in states and localities in which its offices are maintained, in which its agents or independent contractors are located, or in which it is otherwise deemed to be conducting business, the Fund may be subject to the tax laws of such states or localities. In addition, in those states and localities that have income tax laws, the treatment of the Fund and its shareholders under such laws may differ from their treatment under federal income tax laws.

Foreign Shareholders

The foregoing discussion relates only to U.S. federal income tax law as applicable to U.S. shareholders (i.e., U.S. citizens and residents and U.S. domestic corporations, partnerships, trusts and estates). Non-U.S. shareholders who are not U.S. persons should consult their tax advisors regarding U.S. and foreign tax consequences of ownership of shares of the Fund including the likelihood that taxable distributions to them (including any deemed distributions with respect to a repurchase offer) would be subject to withholding of U.S. tax at a rate of 30% (or a lower treaty rate for eligible investors).

Dividends paid by the Fund to non-U.S. shareholders may be subject to U.S. withholding tax at the rate of 30% unless reduced by treaty (and the shareholder files a valid IRS Form W-8BEN, or other applicable form, with the Fund certifying foreign status and treaty eligibility) or the non-U.S. shareholder files an Internal Revenue Service Form W-8ECI, or other applicable form, with the Fund certifying that the investment to which the distribution relates is effectively connected to a United States trade or business of such non-U.S. shareholder (and, if certain tax treaties apply, is attributable to a United States permanent establishment maintained by such non-U.S. shareholder). The Fund may elect not to withhold the applicable withholding tax on any distribution representing a capital gains dividend to a non-U.S. shareholder.

Under sections 1471 through 1474 of the Code, known as "FATCA", the Fund is required to withhold U.S. tax at a rate of 30% on payments of taxable dividends and to certain non-U.S. entities that fail to comply (or be deemed compliant) with the extensive reporting and withholding requirements under FATCA designed to inform the U.S. Treasury of certain U.S. owned foreign assets and accounts. Shareholders may be requested to provide additional information to the Fund to enable it to determine whether FATCA withholding is required. The Fund will disclose the information that it receives from (or concerning) its shareholders to the IRS, non-U.S. taxing authorities or other parties as necessary to comply with FATCA, related intergovernmental agreements or other applicable law or regulation. Each prospective investor is urged to consult its tax adviser regarding the applicability of FATCA and any other reporting

requirements with respect to the prospective investor's own situation, including investments through an intermediary.

Cost Basis Reporting

Mutual funds are required to report to the IRS and furnish to fund shareholders the cost basis information for fund shares purchased and/or sold on or after January 1, 2012. In addition to the requirement to report the gross proceeds from the sale of the Fund's shares, the Fund is also required to report the cost basis information for such shares and indicate whether these shares had a short-term or long-term holding period. In the absence of an election by a shareholder to elect from available IRS accepted cost basis methods, the Fund will use a default cost basis method. The cost basis method elected or applied may not be changed after the settlement date of a sale of the Fund's shares. Fund shareholders should consult with their tax advisors concerning the most desirable IRS-accepted cost basis method for their tax situation and to obtain more information about how the new cost basis reporting law applies to them.

Prospective investors should consult with their own tax advisors regarding the application of these provisions to their situation.

FINANCIAL STATEMENTS

The Fund's audited financial statements for the fiscal year ended August 31, 2023, including the Financial Highlights appearing in the Prospectus, are incorporated by reference and made a part of this SAI. You may request a copy of the Fund's Annual and Semi-Annual Reports to shareholders at no charge by calling the Fund at 1-800-514-3583 or by visiting the Fund's website at www.bluecurrentfunds.com.

APPENDIX B

ULTIMUS MANAGERS TRUST PROXY VOTING POLICIES AND PROCEDURES

1. PURPOSE; DELEGATION

The purpose of this memorandum is to describe the policies and procedures for voting proxies received from issuers whose securities are held by each series (individually, a “Fund” and collectively, the “Funds”) of Ultimus Managers Trust (the “Trust”). The Board of Trustees of the Trust (the “Board”) believes that each Fund’s Investment Adviser is in the best position to make individual voting decisions for such Fund. Therefore, subject to the oversight of the Board, each Fund’s Investment Adviser is hereby delegated the duty to make proxy voting decisions for such Fund, and to implement and undertake such other duties as set forth in, and consistent with, these Policies and Procedures.

2. DEFINITIONS

Proxy. A proxy permits a shareholder to vote without being present at annual or special meetings. A proxy is the form whereby a person who is eligible to vote on corporate matters transmits written instructions for voting or transfers the right to vote to another person in place of the eligible voter. Proxies are generally solicited by management, but may be solicited by dissident shareholders opposed to management’s policies or strategies.

Proxy Manager. Proxy manager, as used herein, refers to the individual, individuals or committee of individuals appointed by the investment advisers to each Fund (each, an “Investment Adviser”) as being responsible for supervising and implementing these Policies and Procedures.

3. POLICY FOR VOTING PROXIES RELATED TO EXCHANGE TRADED FUNDS AND OTHER INVESTMENT COMPANIES.

Pursuant to Section 12(d)(1)(E)(iii) of the Investment Company Act of 1940, all proxies from Exchange Traded Funds (“ETFs”) or other Investment Companies voted by a Fund, registered in the name of the Fund, will have the following voting instructions typed on the proxy form: “Vote these shares in the same proportion as the vote of all other holders of such shares. The beneficial owner of these shares is a registered investment company.”

4. POLICY FOR VOTING PROXIES RELATED TO OTHER PORTFOLIO SECURITIES

Fiduciary Considerations. Proxies with respect to securities other than ETFs or other investment companies are voted solely in the interests of the shareholders of the Trust. Any conflict of interest must be resolved in the way that will most benefit the shareholders.

Management Recommendations. Since the quality and depth of management is a primary factor considered when investing in a company, the recommendation of management on any issue should be given substantial weight. The vote with respect to most issues presented in proxy statements should be cast in accordance with the position of the company’s management, unless it is determined that supporting management’s position would adversely affect the investment merits of owning the stock. However, each issue should be considered on its own merits, and the position of the company’s management should not be supported in any situation where it is found not to be in the best interests of the Trust’s shareholders.

5. CONFLICTS OF INTEREST

The Trust recognizes that under certain circumstances an Investment Adviser may have a conflict of interest in voting proxies on behalf of a Fund. Such circumstances may include, but are not limited to, situations where an Investment Adviser or one or more of its affiliates, including officers, directors or employees, has or is seeking a client relationship with the issuer of the security that is the subject of the proxy vote. The Investment Adviser shall periodically inform its employees that they are under an obligation to be aware of the potential for conflicts of interest on the part of the Investment Adviser with respect to voting proxies on behalf of a Fund, both as a result of the employee's personal relationships and due to circumstances that may arise during the conduct of the Investment Adviser's business, and to bring any conflict of interest of which they become aware to the attention of the proxy manager. With respect to securities other than ETFs or other investment companies, the Investment Adviser shall not vote proxies relating to such issuers on behalf of a Fund until it has determined that the conflict of interest is not material or a method of resolving such conflict of interest has been determined in the manner described below. A conflict of interest will be considered material to the extent that it is determined that such conflict has the potential to influence the Investment Adviser's decision-making in voting a proxy. Materiality determinations will be based upon an assessment of the particular facts and circumstances. If the proxy manager determines that a conflict of interest is not material, the Investment Adviser may vote proxies notwithstanding the existence of a conflict. If the conflict of interest is determined to be material, either (i) the conflict shall be disclosed to the Trust's Committee of Independent Trustees (the "Committee") and the Investment Adviser shall follow the instructions of the Committee or (ii) the Investment Adviser shall vote the issue in question based upon the recommendation of an independent third-party under a contractual arrangement approved by the Committee. The proxy manager shall keep a record of all materiality decisions and report them to the Committee on an annual basis.

6. ROUTINE PROPOSALS

Proxies for routine proposals (such as election of directors, selection of independent public accountants, stock splits and increases in capital stock) with respect to securities other than ETFs or other investment companies should generally be voted in favor of management.

7. PROXY MANAGER APPROVAL

Votes on non-routine matters and votes against a management's recommendations with respect to securities other than ETFs or other investment companies are subject to approval by the proxy manager.

8. PROXY VOTING PROCEDURES

Proxy voting will be conducted in compliance with the policies and practices described herein and is subject to the proxy manager's supervision. A reasonable effort should be made to obtain proxy material and to vote in a timely fashion. Each Investment Adviser shall maintain records regarding the voting of proxies under these Policies and Procedures.

9. FORM N-PX

A record of each proxy vote will be entered on Form N-PX. A copy of each Form N-PX will be signed by the President of the Trust. The Form is to be filed by August 31 each year. Each reporting period covered by the Form N-PX runs from July 1 to June 30. The Trust will disclose in its Annual and Semi-Annual Reports to shareholders and in its registration statement (in the SAI) filed with the SEC on or after August 31 that each Fund's proxy voting record for the most recent twelve-month period ended June 30 is available without charge upon request and is also available on the SEC's website at www.sec.gov.

10. INVESTMENT ADVISERS' VOTING PROCEDURES

The Trust acknowledges that the Investment Advisers to the various Funds have adopted voting policies and procedures for their clients that have been delivered to the Trust. To the extent that an Investment Adviser's policies and procedures are consistent with these Policies and Procedures, the Investment Adviser may implement them with respect to voting proxies on behalf of each Fund managed by such Investment Adviser. However, the provisions of paragraph 5 of these Policies and Procedures relating to conflicts of interest shall supersede any comparable provisions of any Investment Adviser's policies and procedures.

APPENDIX C

EDGE CAPITAL GROUP, LLC PROXY VOTING POLICIES AND PROCEDURES

I. STATEMENT OF POLICY

Proxy voting is an important right of shareholders and reasonable care and diligence must be undertaken to ensure that such rights are properly and timely exercised. Edge does not generally vote proxies for its discretionary and non-discretionary clients. Edge does, however, vote the proxies of the Blue Current Global Dividend Fund and may vote proxies for accounts in certain situations in which the firm acts as a subadvisor for assets placed with Edge by a separate, unaffiliated advisor. For situations in which Edge is voting the proxies pursuant to its appointment as a subadvisor, Edge will ensure that the duty to vote proxies is made clear in its agreement with the unaffiliated advisor and that the advisor's contract with the client stipulates that the proxy will be voted by the advisor or any appointed subadvisor. Edge votes proxies in the best interest of its clients and in accordance with its Proxy Voting Policy and Procedures.

II. USE OF THIRD-PARTY PROXY VOTING SERVICE

The Advisor has entered into an agreement with an independent third-party proxy voting service (the "Proxy Voting Service") to provide the Advisor with its analysis on proxies and to facilitate the electronic voting of proxies.

The SEC has expressed its view that although the voting of proxies remains the duty of a registered advisor, an advisor may contract with service providers to perform certain functions with respect to proxy voting so long as the advisor is comfortable that (i) the proxy voting service is independent from the issuer companies on which it completes its proxy research, and (ii) the advisor maintains ongoing oversight of the delegated proxy voting functions.

The Compliance Officer will monitor any new SEC interpretations regarding the voting of proxies and the use of third-party proxy voting services and revise the Advisor's policies and procedures as necessary. A summary of these Proxy Voting Policies and Procedures will be included in the Advisor's Form ADV Part 2A, and will be updated whenever these policies and procedures are updated.

Conflicts of Interest of the Proxy Voting Service. The Proxy Voting Committee (which includes Compliance, Operations and PMs/Research), will examine information provided by the Proxy Voting Service that describes conflicts to which the Proxy Voting Service is subject or otherwise obtained by the Advisor. The Advisor will seek to require that the Proxy Voting Service promptly provide updates to the Compliance Officer of business changes that might affect or create conflicts and of changes to the proxy voting service's conflict policies and procedures.

Material Inaccuracies. If the Advisor becomes aware of any material inaccuracies in the information provided by the Proxy Voting Service, the Compliance Officer will investigate the matter to determine the cause, evaluate the adequacy of the Proxy Voting Service's control structure and assess the efficacy of the measures instituted to prevent further errors.

Annual Review. The Proxy Voting Committee shall review, no less frequently than annually, the adequacy of these policies and procedures, and the Shareholder Value Policy as adopted, to make sure they have been implemented effectively, including whether the policies and procedures continue to be reasonably designed to ensure that proxies are voted in the best interests of its clients.
